CASH-AND-CARRY PLAN MAY BE TRIED

Decided at Meeting of State Grocers
Attended by L. L. Allen, to
Recommend It

LOCAL BOARD TO FIX PRICE

System Better Than Leaving it to
State Committee—Local De-
livery System Commended

Price interpretations for grocery goods will be decided by county committees and the cash-and-carry plan will be recommended to Indiana grocers, according to the decisions made at the meeting of Indiana grocers held at the Claypool hotel in Indianapolis yesterday when Rush county was represented by L. L. Allen.

Other important changes in the policy of groceries which will affect the consumers are that with every sale of wheat flour an equal amount of substitutes will have to be sold; cities without co-operative deliveries will have only one grocery delivery daily from each store; groceries will remain closed on Sunday.

The decisions that price interpretations should be fixed by county committees which will probably consist of the county food administrator, the delegate to yesterday's conference, and two consumers, followed a careful consideration of leaving this matter to a state committee, a zone committee or county committees. To determine a fair margin on the cash-and-carry basis for grocers will be left to the discretion of the county committees. The interpretation was made a county affair because shipping prices and other expenses aside from the wholesale costs of goods vary in different counties.

The cash-and-carry plan was adopted almost unanimously at the meeting and will be recommended to all Indiana grocers. By the cash-and-carry plan, it is not meant that all grocery purchases will have to be paid for cash or that they will have to be carried instead of delivered. It is meant, however, that those paying cash and carrying articles will receive a reduction and that those running accounts and having articles delivered will pay for them. In no instance, however, will articles that are charged and delivered cost more than they do at the present prices. Those sold on a cash-and-carry basis will be reduced. In addition to the price of the goods, one cent on the dollar will be added for groceries charged and six cents will be charged for delivering an order. Marion county grocers began this plan today.

The Rushville delivery system was quoted by H. E. Barnard as being an ideal one. L. L. Allen, the local delegate was asked to explain in detail just how the system was worked and it was highly commended. After the discussion, the motion which was made that groceries should have only one delivery daily was amended that co-operative deliveries would not be affected. Local deliveries will continue as they have been, inasmuch as they are co-operative.

The ruling that an equal amount of substitutes will be sold with each purchase of wheat flour will be strictly observed. Mr. Barnard stated that at the rate America was consuming wheat flour, the supply would be completely exhausted by May and it was only a choice of making drastic rules now or running out of flour. He had considered seriously forbidding that any wheat flour should be sold this week so that people would get accustomed to buying substitutes. This idea was given up, however. Rye flour and graham flour, which have been considered as wheat substitutes, are no longer such. The allies can use rye flour and graham flour is made from wheat.

DISCOUNT PROMPT TAXES

Income Tax Man at Postoffice Beginning Tomorrow to Give Aid

A three per cent discount will be allowed on income taxes paid at the time the returns are filed out. This word was received at the local postoffice this morning. The time until June 15 is allowed for paying the taxes but this offer is made to induce taxpayers to settle early in order that less work will be attached to the income tax and that the government may have the use of the money. Harry P. Euler, income tax inspector, will be at the postoffice beginning tomorrow to aid taxpayers in making out their returns.

RULES MAYS SHOULD PAY \$6 YEAR FLAT RATE

State Commission Decides Against
Spiceland Phone Co., Owner of
Mays Exchange

VICTORY FOR LOCAL COMPANY

The ruling of the state public service commission on the petition of the Spiceland Telephone Co., owner of the Mays exchange, for a larger percent of the flat rate paid by Mays subscribers for Rushville service, was received here today. The commission decided Mays subscribers should pay the Rushville Co-operative Telephone Company a flat rate of \$6 a year for Rushville service. The Spiceland company was given the alternative of rejecting the flat rate charge and placing the Mays-to-Rushville service on a toll basis, charging ten cents a call and dividing the tolls equally between the Spiceland and Rushville companies.

The ruling was a victory for the Rushville company because Mays subscribers have been paying \$6 a year for Rushville service, \$1.50 going to the Spiceland company and \$4.50 to the Rushville company. The Spiceland company, in its petition, demanded the flat rate of \$6 be divided equally between the two companies. The Spiceland company alleged it owned the line from Mays to this city, the Rushville company making a showing that it owned the line.

STRIKERS AND TROOPS IN CLASH IN BERLIN

Dispatches From Amsterdam Say
There Were Casualties During
The Conflicts

SOME TROOPS REFUSE TO FIRE

(By United Press.)

Amsterdam, Jan. 31.—According to dispatches printed today there have been conflicts between troops and strikers in Berlin with casualties.

At some places the story asserted troops refused to fire on the strikers. Dispatches from Vienna say soldiers started the recent strike movement, many Austrian officers leaning. These officers tore off their insignia and joined with the men. Another dispatch declared a revolution not a strike is reigning in Austria.

Prague messages reported that the local authorities were unable to suppress the strikers and that troops were arriving to aid.

THREAT BRINGS ARRESTS

(By United Press.)

Petrograd, Jan. 31.—A number of anarchists were arrested by the Bolshevik government today as the result of threats to hold American Ambassador Francis responsible for America's treatment of Alexander Berlikman.

WEEK PROMISES TO SET A FUEL RECORD

From Seven to Nine Cars of Coal
Should Reach This City by
Saturday at Latest

TWO HEADED THIS WAY TODAY

Cold Wave Slips in Over Night,
Causing Drop of 20 Degrees,
And Departs Today

The coal situation was even more hopeful today than it has been for several weeks because from seven to nine cars of coal will arrive here yet this week if nothing intervenes.

Only one car of coal was received this morning, but there were two cars headed this way from Anderson this afternoon, due to arrive late today, and two coming from Columbus over the Pennsylvania, one of which was to be set off at Manilla as a loan from Rushville, and the other to be brought on here. The Cottage hotel got a car of Indiana coal and some of it will be sold for domestic use.

Both the Innis-Pearce and Park furniture factories closed last night and it was not heatless Monday either. It was heatless Thursday with them because they did not have enough fuel to operate. One of the cars on the southbound Big Four freight out of Anderson, to arrive here late today, was for the Innis-Pearce factory. Walter Pearce of the Park went to Terre Haute today to see if he could not get some coal.

The dealer to whom one of the cars on the Big Four freight this afternoon was consigned, is expecting three more cars of fuel administration coal and two cars of West Virginia coal on his own orders yet this week. Another dealer anticipates the arrival of a car of West Virginia and a car of Kentucky coal at any time. This makes eight and the one coming in over the Pennsylvania this afternoon for still another dealer makes the ninth which should arrive here yet this week.

The cold wave scheduled to visit Rush county last night arrived on time, according to Elwood Kirkwood, county weather observer, but it came and went during the night and as a result was not noticed to a great extent by many people.

There was a drop of twenty degrees in temperature last night. At 6:30 yesterday evening the thermometer registered twenty-two above and this morning shortly before daylight had fallen to two degrees above zero. At noon the mercury had climbed again, however, until it had reached the twenty degree above mark.

The weather man, with his prophecy of "fair and colder" for tonight offers little consolation to those people who are awaiting anxiously the prediction of warmer weather.

WAGE INCREASE ADVISED

(By United Press.)

Washington, Jan. 31.—Wage increase of from 10 to 20 per cent for practically all postoffice employees were recommended to the house today by the post office committee.

CANADA SEIZES WHEAT

(By United Press.)

Winnipeg, Jan. 31.—All wheat in elevators throughout Canada aggregating 100,000,000 bushels was seized by the government today. Orders to the United States must be cancelled.

SPANISH SHIPS HELD

Continued on Page 3

New York, Jan. 31.—On orders from the government all Spanish steamships now in American ports will be held for an indefinite period. It was learned today when the Alphonso 12th, a large Spanish passenger vessel was ordered held in port as she was ready to sail. There are 6 ships of the same kind now in this port.

MEMBERSHIP IS CLIMBING FAST

Members That Join up to Time His-
tory Goes to Press Will be In-
cluded in Honor Roll

MANY NEW ONES EVERY DAY

R. E. Mansfield Will Compile Book
of Rush County's War Record
in Every Conflict

Rush county's membership in Red Cross will go far over the number reported at the conclusion of the membership drive. This report showed that the county had a membership of 8,712 but since that time, the names of new members have continued to pour in. There is scarcely a day at the Red Cross office, off of the recorder's office on the second floor of the court house, that several new names are not handed in for membership. On Tuesday 12 new members came in and on Wednesday by early afternoon, five new names had been handed in.

These new members are in addition to those who have already been turned in from over the county as a result of the campaign during the drive. It is impossible just how high the membership roll will mount but it is safe to predict that there will be more than 9,000 members in Red Cross from Rush county.

The new members who join up to the time that the Red Cross history goes to press will be included in the honor roll of Rush county citizens who have in this way done their bit. This book will go over the whole country to former Rush county citizens and one whose name is omitted because they have failed to join Red Cross will have great cause for regret.

The local chapter is very fortunate in having such a personage as Robert E. Mansfield to compile the book. Mr. Mansfield has had experience in book writing and is taking a great interest in making this publication one of which the county will be proud. Records of the armies that have gone from this county in every conflict as well as many other facts of the county's activity will be included in its pages.

Blanks have been posted in the banks, newspaper offices, and Red Cross headquarters over the county where persons wishing to subscribe for the history may leave their name and twenty-five cents for each copy wanted. Lawyers, doctors and school teachers are to consider themselves appointed on the committee to explain the purpose and value of the history to persons wishing to know about it, and also to accept subscriptions.

HOME GARDENERS MAY GET FREE SEED

Congressman Richard N. Elliott Of-
fers to Send Packages to Any-
one Applying For Them

IS PART OF FOOD CAMPAIGN

Garden seed packages may be procured free of charge from Congressman Richard N. Elliott, according to the letter received from stating that "anyone writing to me asking for seed will receive a package of the same." Congressman Elliott's address is 354 House Office Building, Washington, D. C. The address of the applicant should be plainly written to accompany the request for seed.

The free distribution is a part of the greater food production movement and the congressman is anxious that a package of the seeds be in the hands of every household in the sixth district who intends to raise a garden.

TO TAKE RELIGIOUS CENSUS

Ministerial Association Makes Plans
For Canvass in February

Complete plan for taking a religious census of Rushville and its suburbs were laid at the meeting of the ministerial association and the Sunday school superintendents held at the home of Walter E. Frazee last evening. Twenty workers from each church, 120 in all, were appointed to make the canvass to be conducted either February 10 or 11. The results of the canvass will be given to each church which will plan an individual campaign to reach the persons who have shown a preference for that church.

SAYS FARMERS MUST DETERMINE ISSUE

President Wilson Makes Public Ad-
dress Prepared to Deliver at
Urbana, Ill.

MUCH DEPENDS ON AMERICA

(By United Press.)

Washington, Jan. 31.—"The culmination of the struggle has come. The farmer of this year on one side or the other must determine the issue," said President Wilson today to farmers in making public an address he had prepared to deliver at Urbana, Ill. today.

"And in facing this crisis," he said, "it has turned out that the forces that fight for freedom of men all over the world as well as our own depend on us in an extraordinary and unexpected degree for sustenance, for the supply of materials, by which men are to live and fight. And it will be our story when the war is over that we have supplied the material and supplied an abundance. That it will be all the more glory in supplying them, we have made our supreme effort and sacrifice."

"We are fighting as truly for the liberty and self government of the United States as if the war of our own revolution was to be fought over again and every man in every business must know by this time that his future fortunes depend on victory."

"Our national life and whole economic development will come under foreign government if we do not win. We must win therefore and will win, I need not ask to trust your lives and fortunes with those of the rest of the nation in the accomplishment of victory."

COAL OIL SHORTAGE BEEN AVOIDED HERE

Consumers Are Using Many Extra
Gallons of Oil For Lamps and
Stoves at Present

IS FELT IN OTHER TOWNS

Although the coal oil wholesalers have been kept busy during the last ten days supplying the grocers with oil, a shortage of this product which has been so greatly in demand recently, has so far been prevented in Rushville.

Because of lack of gas for lighting purposes as well as heating, lamps and coal oil stoves have been taken out of the dark corners and are again in use, and as a result the extra gallons of oil which are used in Rushville daily are no small items when the wholesaler begin checking up.

In several of the surrounding towns the shortage of coal oil was acute. During the recent cold days in several homes where the gas was low and no coal could be obtained, the people depended upon coal oil both for lighting and heating purposes.

TWO SAMMIES DIE IN A GERMAN RAID

Four Are Wounded and One Taken
Prisoner When Enemy Over-
whelms Americans.

BATTLE AGAINST BIG ODDS

That Sammies Fought Valiantly is
Testified to by the Disorder in
The German Lines

(By United Press.)

With the American Army in France, Jan. 31.—Two American soldiers were killed, four wounded and one taken prisoner yesterday in an enemy raid against a small American station. The Americans battled heroically against the superior odds. Taking advantage of a heavy mist the Germans started an intense fire.

The fire destroyed the line of communication by which aid could have been summoned. That the Sammies fought valiantly was testified to by the disorder in the German lines. How much loss the Germans suffered is not known as they took away their dead and wounded.

The fight began suddenly after a night of quietude. There had been only customary artillery fire. American patrols who had been out in No-Man's land had all returned.

Most of the shells that came in the deluge of German fire were heavy 77. They were directed around a little crest held by the Americans which sticks out like a peak toward the German lines.

Five American soldiers have been killed recently by chance shells, it was announced today. The only American officer included in the list of wounded was Capt. Kingman, who was mistaken for a German by a Sammie in the dark and was shot in the head.

Seventeen men in all had been wounded recently, but of these six were reported to have suffered accidental wounds.

CHANGES MADE IN THE PHYSICAL TESTS

Requirements Lessened so Practi-
cally Every Man Can be Ac-
cepted For Service

ONLY VERY FEW WILL ESCAPE

(By United Press.)

Washington, Jan. 31.—Changes in the physical requirement for men in the national army by which thousands who have been rejected under the first regulation can be accepted for service, were announced today by Prof. Marshall General Crowder.

The modifications indicate that the war department is determined to hold for service—either general military or special—all men registered except those whose physical condition cannot be remedied to make them fit for any kind of service.

THRIFT DAY TO BE OBSERVED

Ministers Asked to Preach Special
Sermons on Sunday

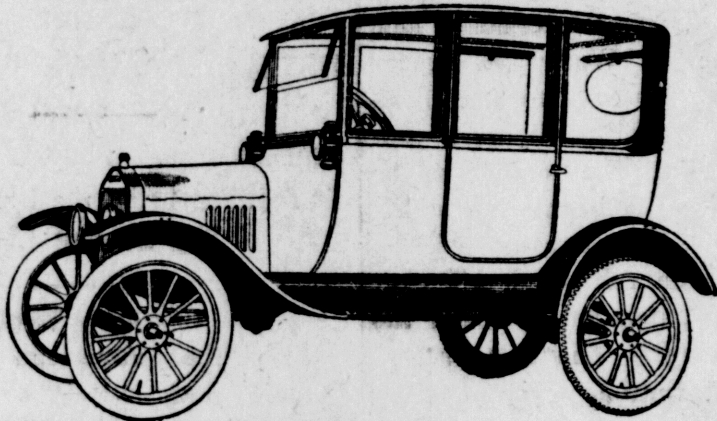

Thrift Day, February 3, will be widely observed in Rush county this year. The ministers of the churches have been asked by county chairman of the War Saving Stamps campaign, John A. Tittsworth, to dwell on the meaning of true Thrift at the Sunday services, appropriate exercises will be conducted in the schools on the following day, and a special effort to increase the sale of Thrift stamps and war certificates will be made on the Monday following Thrift Day.

Ford

THE UNIVERSAL CAR

The Ford Sedan is elegance built upon Ford quality. In town and country here is the dependable, every-day-in-the-year enclosed car. Not only is it a car of handsome appearance with high class interior fittings—so much appreciated by women—but is the same Ford—"The Universal Car"—which more than two million owners have found to be the most reliable, the most serviceable, practical and economical car to operate and maintain. Sedan \$695 f. o. b. Detroit.

All Fats Should Be Saved To Reduce Shortage Which World Faces, Says Expert

The United States is confronted by a shortage of sugar and fats. The world has been facing a shortage of fats for two or three years. Fats and sugar are necessary human foods and since they serve practically the same purpose an increase of the supply of fats will serve to relieve the sugar shortage. The supply can be increased in two ways, by production and by conservation. Conservation offers immediate relief and is the quickest way of increasing the supply.

A large amount of fat is wasted in the average home because members of the family, especially the youngsters, do not like fat meat. A large percent, therefore, of the fat served in the American home finds its way to the garbage can. Where hogs or poultry are kept this is not entirely wasted, but these animals can obtain this energy-producing food from other sources which offer a cheaper supply.

P. F. Trowbridge of the University of Missouri college of agriculture, offers the following suggestions for conserving this important food: "All clean fats should be saved and rendered for edible fats (lard substitutes). Beef and mutton fats are hard and do not work in the kitchen as readily as the softer fats. Mix these fats with lard or refined cottonseed oil and a very satisfactory cooking fat is obtained. If mutton fat be rendered with milk (sour milk is even better than sweet) the objectionable flavor will be almost entirely eliminated. Poultry fat should never be thrown away but rendered for use in cooking. All grease and non-edible fat obtained in the home at all seasons and especially at butchering time should be rendered and saved for soap making.

"The government needs the fats," said Doctor Trowbridge. "We need them ourselves. The starving people of Europe need them. A waste of any kind of food at this time is unpatriotic."

HAVE A SMILE

Pleasant for Him.

Bobby (entertaining sister's beau)—Effie told me yesterday you was born to be a politician.

Mr. Simpson—A politician? Why does she think that?

Bobby—That's what ma asked her, and she said because you can do so much talkin' without committing yourself.

Muzzle Not the Ox.

Manager (excitedly)—Where is the apple to put on Tell's son's head? There isn't a moment to lose. Stage Director—Tell ate it up because you refused to advance him money yesterday, and he said he was hungry.

A Generous Daughter.

Aged Admirer—Think of all the luxuries a rich husband like me can give you.

Miss De Young—Oh, a rich father would do just as well! Marry my mother!

A Vengeful Spirit.

Nurse (to bawling boy)—Why, Bobby, aren't you ashamed? I wouldn't cry that way if it was my hair that was being combed.

Bobby (fiercely)—I'll bet you would if I was doin' the combin'.

Too Modern.

She—You don't hear these good old-fashioned hymns sung any more at church.

He—I guess you are right. The congregation broke down last Sunday in singing "Old Hundred."

She—What was the trouble?

He—The organist tried to rag it by playing it fifty-fifty.

Reformed.

Mrs. Henpeck—I married you to reform you.

Mr. Henpeck—You succeeded. I'll never marry again if I live to be 1,000 years old.

Age Matter of Illusion.

We are never old, that is, we never cease easily to be young, for all life at the same time; youth is an army, the whole battalion of our faculties and our freshnesses, our passions, and our illusions, on a considerably reluctant march into the enemy's country, the country of the general lost freshness; and I think it throws out at least as many stragglers behind as skirmishers ahead—stragglers who often catch up but belatedly with the main body, and even in many a case never catch up at all. Or under another figure it is a book in several volumes, and even at this a mere instalment of the large library of life, with a volume here and there closing, as something in the clasp of its covers may assure us, while another remains either completely agape or kept open by a fond finger thrust in between the leaves.—Henry Jones, in Scribner's.

Important Information

Sugar

You would buy if you could, you would have bought a ton sixty days ago if you had foreseen the present shortage. We're all running around now for a pound, here and there. But still we haven't suffered.

For the past five years, we have been eating just about four times as much sugar as our fathers and mothers ate 10 to 20 years ago, and they most all lived to ripe old ages. So why worry about sugar?

Wool

Here is something that we all want and need, and the greatest wool famine this country has ever known is coming. In fact, it is here.

Before the war we produced only one-half the wool we needed. We imported the other half.

Our army, for woolen overcoats, suits, blankets, underwear, hosiery, mittens and sweaters, requires as much as we formerly produced or imported.

Our production of wool has not been increased. Our imports of wool are lessening. There are 50,000 tons of sugar on the way from Louisiana, but there are no ships to bring even a pound of wool from Australia. You can worry about wool.

Buy Clothes

We don't say this altogether because of the fact that we are in the clothing business.

We are now closing a year's business that will finish far in excess of that of any previous year. You have done very well by us this year, and we feel we can afford this space to give you this tip to buy clothes—all wool clothes—whether you trade or buy here, or buy of some of our neighbors.

We Will Say This

Our stocks of all wool clothes for men and boys are the largest in our history.

They're worth much more than we paid for them.

They'll continue to grow in value as the wool market tightens. When you consider that we're selling them at prices based on what we paid months ago, you'll realize that we're giving you something. Therefore buy all the clothes you can buy now.

SALE HELD UNDER TENT

Lunch will be served by Epworth League of Pleasant Ridge.

Will, on Thursday, January 31st

1918, again have in operation its full regular schedule of passenger and freight service, which has been seriously interfered with by the frequent heavy snows during our severe Winter weather.

Personal Points

—William Bosley of Milroy spent the day in this city.

—Mrs. Mary Cowan of Milroy spent the day in this city.

—Mrs. Ralph Payne was an Indianapolis visitor yesterday.

—Ross Smith of Indianapolis was the guest of friends in this city last night.

—George Stone of Indianapolis was in this city today transacting business.

—Miss Loretta Davis has gone to Greensburg to spend the remainder of the week with Mr. and Mrs. Fred Stone.

—Miss Catherine Lewis of Indianapolis will spend the week-end here the guest of relatives.

—Miss Ada Fischer has returned from Indianapolis where she was the guest of friends and relatives.

—Miss Irene Owens has gone to Liberty to spend the remainder of the week with Miss Helen Josephs.

—Ernest F. Marlatt of Kenosha, Wis., will spend Sunday with his mother, Mrs. A. N. Marlatt of this city.

—Miss Martha Brant of Newcastle has returned to her home after spending a few days with friends here.

—Mrs. Thomas Maley of Chicago will arrive the last of the week for an extended visit with relatives here and near Mays.

—Mr. and Mrs. Edward Adams of Indianapolis have returned to their home after a short visit here, the guest of friends and relatives.

—Mrs. Steven Kelly will return tomorrow from an extended visit in Chicago where she was the guest of her daughter, Miss Marie Kelly.

—Albert Dickey of Camp Taylor, Ky., has returned to the camp after spending his furlough with his parents, Mr. and Mrs. John Dickey.

—Miss Phyllis Casady will go to Shelbyville tomorrow to spend the week-end, the guest of Mr. and Mrs. Samp Casady and Mrs. Pleas Greenley.

—Mrs. Bruce Johnson has returned from Muncie where she was the guest of her daughter Miss Carla Doran, who is attending school there.

—Louis Winbourne, James Worster, Halbert Brown, Cyril Caron, Elmer Ryan, James Waits and Arthur Hittle motored to Fairview last night and attended the basketball game.

—J. W. Gartin has gone to Louisville, Ky., to spend several days with his son, Lieutenant Walter Gartin, who is recovering from pneumonia. Mrs. Gartin has returned from Camp Taylor.

Thousands of patriotic young women throughout the country are looking for ways in which they can serve the government at the present time.

The Bureau of Nursing of the Lake Division, American Red Cross, Cleveland, points out that there is no form of service open to women more greatly needed than that rendered by the nurses of the country.

The Red Cross Nursing Service—for which most registered nurses are eligible—constitutes the reserve for the army and the navy nurse corps. It is calling for many hundreds of highly qualified nurses for service abroad in our own hospitals and those of our allies. It is also calling many hundreds for service in the base hospitals in our cantonments.

"We have," says Miss Roberts, "nurses enough to meet our present need, but in order to maintain our health standards at home during and after the war and to continue to care for our armies many more must be trained."

"The need for skilled nurses during the next few years will be the greatest the world has ever known and the number of students in the spring classes now being enrolled in the schools for nurses throughout the country should be limited only by the teaching facilities of the schools and by the clinical facilities of the hospitals with which they are connected."

The committee on nursing of the general medical board of the Council of National Defense has encouraged those hospitals possessing sufficient clinical material to increase their facilities for the thorough training of nurses and in many instances this has been done.

Following are some of the advantages in nursing education and some points a young woman should consider in selecting a training school:

- 1 Nursing education not only prepares for a large variety of professional fields, but is an excellent preparation for home and family life and for public service in many ways.
- 2 Almost upon enrollment the student begins her service to the community in helping to care for the sick, as a part of her instruction and training.
- 3 Life in most schools is healthy, wholesome, simple and regular. It is full of vivid human interest, the student sharing in deepest realities of life.
- 4 The graduate of a good school steps at once into regular professional life and work with an assured livelihood. No weary struggle to get a foothold—to show what she can do. The hospital has carried her over that stage. Her work is ready and waiting for her if she successfully completes her training.
- 5 The student is at no expense for tuition, board, lodging, laundry, uniform, etc., in the great majority of schools. Only a few schools charge a tuition fee, for preparatory course. The student is also cared for in illness.
- 6 Salaries compare favorably with salaries of other trained women. In some fields they are higher than the average. Especially is this true of teaching and administrative work either in institutions or in Public Health Nursing. Opportunities for advancement are many and steadily increasing.

WAR DEMANDS
TRAINING OF
MORE NURSES

Thousands of Young Women Are Needed to Fill Ranks of Nurses in Red Cross Service

Thousands of patriotic young women throughout the country are looking for ways in which they can serve the government at the present time.

The Bureau of Nursing of the Lake Division, American Red Cross, Cleveland, points out that there is no form of service open to women more greatly needed than that rendered by the nurses of the country.

The Red Cross Nursing Service—for which most registered nurses are eligible—constitutes the reserve for the army and the navy nurse corps. It is calling for many hundreds of highly qualified nurses for service abroad in our own hospitals and those of our allies. It is also calling many hundreds for service in the base hospitals in our cantonments.

"We have," says Miss Roberts, "nurses enough to meet our present need, but in order to maintain our health standards at home during and after the war and to continue to care for our armies many more must be trained."

"The need for skilled nurses during the next few years will be the greatest the world has ever known and the number of students in the spring classes now being enrolled in the schools for nurses throughout the country should be limited only by the teaching facilities of the schools and by the clinical facilities of the hospitals with which they are connected."

The committee on nursing of the general medical board of the Council of National Defense has encouraged those hospitals possessing sufficient clinical material to increase their facilities for the thorough training of nurses and in many instances this has been done.

Following are some of the advantages in nursing education and some points a young woman should consider in selecting a training school:

- 1 Nursing education not only prepares for a large variety of professional fields, but is an excellent preparation for home and family life and for public service in many ways.
- 2 Almost upon enrollment the student begins her service to the community in helping to care for the sick, as a part of her instruction and training.
- 3 Life in most schools is healthy, wholesome, simple and regular. It is full of vivid human interest, the student sharing in deepest realities of life.
- 4 The graduate of a good school steps at once into regular professional life and work with an assured livelihood. No weary struggle to get a foothold—to show what she can do. The hospital has carried her over that stage. Her work is ready and waiting for her if she successfully completes her training.
- 5 The student is at no expense for tuition, board, lodging, laundry, uniform, etc., in the great majority of schools. Only a few schools charge a tuition fee, for preparatory course. The student is also cared for in illness.
- 6 Salaries compare favorably with salaries of other trained women. In some fields they are higher than the average. Especially is this true of teaching and administrative work either in institutions or in Public Health Nursing. Opportunities for advancement are many and steadily increasing.

Choice of Training School.

(a) Be careful in choosing a training school. Be sure that its diploma will enable you to register in your state.

(b) That its educational standards are good.

(c) That it offers thorough training in medical, surgical, children's and maternity nursing.

(d) That the housing and living conditions are such as to ensure the health and well-being of students.

(e) That the working conditions are modern and the hours reasonable.

(f) That the general standing of the school and its graduates is good. Where any doubt exists on this point further advice should be sought, through officials of the State Nurses' Association or the State Board of Examiners.

Addresses and further information can be obtained by writing to the Bureau of Nursing, Lake Division, American Red Cross, Garfield building, Cleveland.

The American Red Cross has provided \$122,000 worth of supplies for the relief of sufferers in Guatemala. A party of experienced Red Cross relief workers has also been sent to Guatemala.

The American Red Cross in France does not admit to its staff any American of draft age unless they present the proper credentials from the United States military or naval authorities, giving the reasons why they are not qualified for military or naval service.

At present there are 2,352,079 Red Cross members in Ohio, Indiana and Kentucky.

Fifty Women Wanted!

You Can Make from \$7.50 to \$45.00 Next Saturday

We want fifty women to come to our store the first thing Saturday morning. We have just fifty strictly new Winter Coats, all sizes that we are going to cut loose Saturday morning at just half their former reasonable prices. Come early for they won't last long at these prices.

Arc You Feeling Fit?
Do you envy the man or woman of untiring energy, strong body and happy disposition? All these depend upon good health, and good health is impossible when the kidneys are weak, overworked or diseased. Foley Kidney Pills act promptly and help the kidneys filter the blood and cost out the poisonous waste products that cause sore and swollen muscles and joints, backache, rheumatism, and the symptoms that give warning of dangerous kidney and bladder ailments. F. B. Johnson. (Adv.)

A PUFF AND A BLOW.

In a Little While a Pain. Same Misery. No Relief Till Pepsinco is Found. Moral—Keep Pepsinco on the Table and Take After the Meal.

Pepsinco never fails to give almost instant relief in indigestion, dyspepsia, sour stomach, bloating, sick headache. Thousands of satisfied users will vouch for Pepsinco, simply because it is always ready.

Pepsinco acts quickly and is safe and sure. It digests perfectly all that is eaten. The stomach is a peculiar organ. It will not allow an overdoing. It cries out when it is worked too hard. It sends a wireless for help and it behooves every one to watch for the sign.

Mr. R. said: "I wouldn't be without Pepsinco, if it costs ten times what it does." He said it keeps him well. Many persons say the same. Pepsinco is a true friend. It is guaranteed to help in every instance when the stomach bothers. All druggists recommend it and sell lots of it.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound" you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders. Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home; because nobody can make a mistake by having a good kidney flushing any time.

This May be Pro-German Too

When there was objection to giving the fuel administration control over oil, Mr. Garfield gave out a statement criticizing the objectors and saying, among other things, that some of the objection was "possibly pro-German." There we have a fair sample of the attitude at Washington. To question the wisdom of policies of the administration is to lay yourself open to the insinuation that you are "pro-German." When some of the over-zealous buyers of Liberty bonds found that they had undertaken more than they could fulfill and sold their bonds at a loss, the insinuation came from the treasury department that these sales were pro-German. Complaints of deplorable conditions in the army camps were also pro-German until democratic committees of congress got busy and made the facts a matter of public record; since then there has been no insinuation that the exposures were pro-German. By this time the general public is getting wise to the fact that the shout of "Pro-German" is pretty likely to be a cloak for incompetency of some kind.

A Blow at Federal Ownership

Government ownership of railroads has received a setback through the favorable vote of the senate interstate commerce committee on Senator James E. Watson's amendment to limit federal control of the roads until a year after the war. The administration bill under which the roads are now being operated provides government control of the roads shall not terminate only at the express will of congress. Foes of government ownership of railroads have contended this means that it is the wish of the administration to continue federal control after the war, which would be done if the opposition to the plan were not too great.

Senator Watson has led the opponents of government ownership and introduced the amendment to limit federal operation. Favorable vote on the amendment in the committee does not mean it will pass because it yet has to be considered by both the senate and the house.

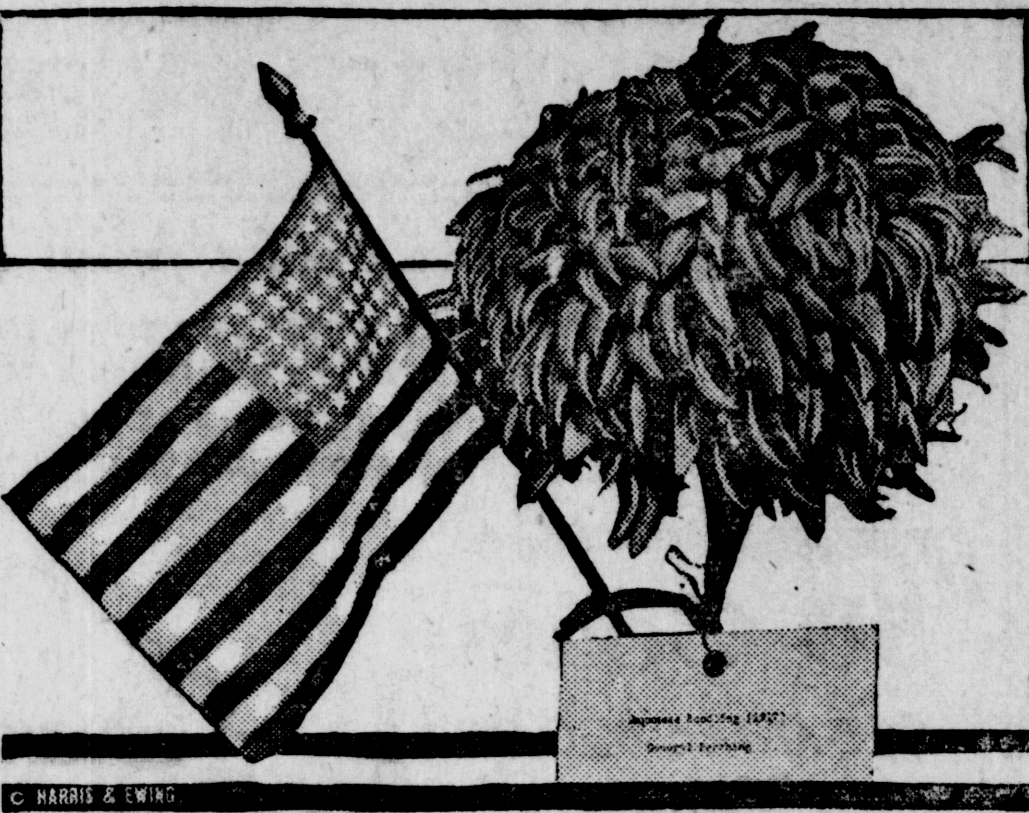

Swatting Motorists

Looks like somebody sits up nights thinking of a new scheme to swat automobile owners. A bill has been introduced in congress proposing a federal license for all owners of automobiles who do not drive their own cars. It is provided that a fee of not less than \$25 shall be charged every such private owner. The bill proposes that the licenses shall be issued by the overworked secretary of the treasury, and fines of not more than \$25 are prescribed for the operation of a car, the owner of which has not complied with the provisions of the bill.

The kaiser is reported to be running short of man power. This country should help him out to the extent of about a half million of his subjects for whom we have absolutely no need.

OVERWHELMED BY FAST EM ROE FIVE

Fairview Athletic Club Basketball Team Defeated by Champion Independent Quintet

THE FINAL SCORE IS 45 TO 17

Fairview Scores 1 Point in First Half But Piles up 16 in Last Ten Minutes of Play

In the most thrilling basketball game staged in Rush county in several seasons the Em-Roes, state independent basketball champions, defeated the Fairview Athletic Club team last night by a score of 45 to 17. The game was played in the Fairview gym and was witnessed by more than three hundred basketball fans from Rush and Fayette counties.

The Fairview five has played together for three years and the defeat which they suffered in last night's game was the first on their own floor. They played against overwhelming odds, however. The Em-Roes are made up of men from some of the fastest college teams in the state—Stonebracker and Bacon, two of the Em-Roes star players were members of the Wabash Wonder Five of last year and with the excellent team work and expert basket shooting of the other members of the championship team, carried the Fairview team off their feet.

Glen Smelser a former star on the Purdue basketball team, and Ralph Martin, a star on the local high school team of last year, played an excellent game for the Fairview athletics. The accurate basket shooting of the two stars in the last part of the game assisted by Nelson, another Fairview player, piled up 16 points for the losing team in the last ten minutes of the game. At the close of the first half the score stood 20 to 1. The lack of playing of the Rush county boys during the first part of the game was attributed to "stage fright" but as soon as they warmed up, their playing took on that whirlwind motion which compelled the Em-Roes to play with added energy.

The line-up was as follows: Fairview—forward, Smelser and Nelson; center, R. Martin; guards, Foster and Hinchman and A. Martin. Smelser made one foul goal in the first half and four field goals in the last half. Nelson scored one field and one foul goal and Martin two field goals and one foul goal.

The Em-Roes lined up as follows—forward, Smith and A. Brent; center, Stonebracker; guards, Bacon and O. Brent. In the first half, Stonebracker scored nine field goals and two foul goals and Smith and Bacon each scored a field goal. In the last half Stonebracker made four field goals and one foul goal.

Had the Grip Three Weeks

With January comes lagrippe. Lingering colds seem to settle in the system, causing one to ache all over, feel feverish and chilly, tired, heavy and dropping. Mrs. Lizzie Tyles, Henderson, Ky., writes: "My daughter had lagrippe for three weeks. I had the doctor and bought medicine and none of it did any good. I gave her Foley's Honey and Tar and now she is all right. I have told all my friends about it." Insist on the genuine Foley's Honey and Tar. F. B. Johnson.—(Adv.)

LOCAL BASKETBALL GAMES CANCELLED

School Board Asks That This Step be Taken as a Fuel Conservation Measure

WAS TO BE GAMED HERE FRIDAY

All high school basketball games during the severely cold weather have been cancelled. The action was taken this morning following the request made by the school board that it be done as a fuel conservation measure. If conditions improve, the basketball tournament will be held here February 23, otherwise it will not.

The Liberty game for tomorrow night has been called off and the Richmond game for next Friday night will also be cancelled. Both were to have been on the local floor. The Liberty players understood the situation when called and accepted it in the spirit the ruling was made.

Smith scored two and A. Brent three field goals.

The game was refereed by Ross Smith of Indianapolis.

Remodeling Old Clothing, Transforming Worn Garments Into Serviceable New Ones

Change entire style of dress if you have enough material, or put some other kind of material with old material for woolen and silk is combined in many of the new winter costumes, says Hazel Zimmerman, Home Demonstration Agent, Agricultural Extension Service, University of Arizona.

Put a new collar, cuffs, and belt on the old dress. This will improve looks of dress. Change length of skirt. Do not have skirt too short or too long. Practical skirts for women are five to six inches from floor. If garment cannot be made over for owner it should be made into clothes for smaller members of family.

Most all garments should be mended before cleaning or laundering. Mending tissues helps out wonderfully in mending of woolen clothes. This is used after garment is cleaned. All patches should be faded the same color as garment before using. Use strong net in mending stockings. The bars are easy to follow in making darning stitch.

Many old garments can be made new again by changing the color. Always follow the directions found on package of dye for these are the best. Get dye to suit kind of material. Never try to dye cotton material with dye for woolen material. Always use the amount of salt called for when dyeing cotton garments. The salt sets the dye. Old gingham aprons and dresses which have faded may be dyed a dark blue. These iron nicely and look like new. Never try to dye a dark material a light shade for this cannot be accomplished with satisfactory results.

Cleanliness is the god of the navy. A man—boy, rather—since he is commonly under twenty-one—arrives at Great Lakes by the noon train and goes into the detention camp. He is lined up with 40 or a hundred others and his baggage examined. Cigarettes, knives, whisky, firearms—anything he might hurt himself or his neighbor with—are confiscated. When he has a hot bath and clean clothes. In the days that follow he goes to the dentist and has his mouth put in shape, Collier says. He goes to the doctor and is vaccinated, inoculated, tested. He is given \$90 worth of new clothes—three suits of white clothes, two suits of serge clothes, three suits of underwear, stockings, shoes, handkerchiefs, caps, dunnage bag—everything stenciled in two places with his own name. Then he is introduced to the ki-yi.

The ki-yi is a scrubbing brush, a wooden-backed scrubbing brush with stiff fiber bristles. It is the washing machine of the navy. Every man washes his own clothes.

KILLED IN TEST FLIGHT

Paris, January 30.—The duke of Chevreuse was killed today while making a test flight in an airplane. He was twenty-six years old, son of the duke of Luynes and grandson of the duchess d'Uzes.

FALLS OFF STEPLADDER

Guy Carson, janitor at the Fairview township grade school sustained painful injuries a few days ago when he fell from a step ladder, breaking a bone in his right arm above the wrist.

Society

The members of the Women's Relief Corps of this city enjoyed a delightful all day meeting at the home of Mrs. James Gregg in North Harrison street yesterday. The affair was given in honor of the birthday of Mrs. Gregg and at noon a sumptuous pitch-in dinner was served. The house was decorated attractively in national colors, patriotic decorations being suggested by the numerous American flags which were used through the rooms. Twenty-five guests were entertained.

During the afternoon a program was given honoring the birthday of McKinley. A short sketch of his life was read by Mrs. Mary Young after which a program of musical numbers and recitations was given by Miss Lillian Priest and Miss Lillian Gregg.

Mrs. Walter Beringer was elected president of the Junonia club at the regular meeting which was held yesterday afternoon at the home of Mrs. Charles White in South Harrison street. The other newly elected officers were: secretary, Mrs. Charles White and treasurer, Mrs. Walter Smith. The guests enjoyed a pleasant social afternoon, following the business session, and a two course luncheon was served.

The next meeting will be held in two weeks at the home of Mrs. Walter Smith in North Sexton street.

Mrs. Esther McCloud and Mrs. C. E. Walden of Connersville, both formerly of this city, have received favorable comment after their work at soloists in the performance of "The Messiah" in the Connersville high school auditorium recently. There was a chorus of 125 voices for the concert. Their names are also mentioned in the account of the performance given in the Musical Observer, one of the leading musical periodicals of New York City.

The members of the F. A. R. C. E. club and several other guests were entertained yesterday by Mrs. Ned Tompkins at her home in Milroy, at Peek. The rooms were arranged in

an attractive manner for the affair, flowers and greenery being used about in profusion. Guests for six tables were entertained and at the close of a pleasant afternoon the hostess served a dainty luncheon.

Mr. and Mrs. H. M. Allender entertained with an informal dinner party yesterday at their home followed by an afternoon at Rook. The guests included Mr. and Mrs. Lawrence Price and son Lowell, Mr. and Mrs. George Adams, and Raymond Price of Carthage, Mr. and Mrs. R. W. Alexander of Arlington and Mr. and Mrs. Edward Adams and daughter Helen of Indianapolis.

Honoring Mrs. Francis Moor of Chicago, Mrs. Will Carter entertained at her home in North Main street yesterday afternoon with a Bridge party. The guests included the members of the Thursday afternoon bridge club and a few other guests and at the close of a delightful afternoon the hostess served a dainty two course luncheon.

Mr. and Mrs. John C. Blackledge who are spending the winter with their son Lieut. Allan Blackledge at Camp Shelby, Hattiesburg, were among the chaperons at a military ball given recently by the Hattiesburg Elks for the officers of the camp who are members of the Elks lodge.

Red Cross Notes

The Milroy auxiliary of Red Cross, in spite of the fact that their headquarters in the Masonic rooms have been closed during the fuel shortage, has accomplished a great deal of sewing in the past two months. All of the work during this time has been done in the homes with small gatherings of the members or handed out to members of the society who have done individual work. In spite of these handicaps the ladies recently sent a shipment of goods to the Indianapolis headquarters which included 272 pieces.

A large shipment of trench candles was sent out from the Red Cross headquarters yesterday. The box contained 700 candles made for use in the trenches, each of which will burn between 20 and 30 minutes.

Days Pickings

Lieutenant Raymond Ross of Crawfordsville now in the French aviation service has safely reached France according to the cablegram received by his parents. He spent a three months leave in this country after being in foreign service for some time.

Miss Gladys Tittsworth, daughter of John A. Tittsworth, was one of the 20 students out of the 5,000 in Chicago university who received straight A grades on her studies for the last semester. Miss Tittsworth's grades were two A's and one A minus. Such a record is remarkable in that university. She is a graduate of the local high school.

Mr. and Mrs. James Meek of Albion, Mich., formerly of this city have received word from their son, James Meek of the 17 Aerial Squadron that he has safely arrived on the other side. The message was sent as a cablegram. It is not known where he landed.

Corporal Charles Pea, of this city, formerly of the headquarters company of the 139th field artillery stationed at Camp Shelby, Hattiesburg, has been transferred to the Auxiliary Remount Depot No. 313. Corporal Pea will still be stationed at Camp Shelby.

Lester Caron, Company, A, 152nd Infantry, son of Mr. and Mrs. Charles Caron of this city, has been transferred to Camp Hancock, near Augusta, Georgia. His brother, Jerome Caron, is at Camp Hancock in the aviation service.

The First Presbyterian church prayer meeting will be held tonight at 7:30 o'clock at the home of Mr. and Mrs. Fred A. Caldwell in North Morgan street. The subject will be the third study in the book of Job, "Does the Law of Cause and Effect Always Hold True in the Moral World?" Special music will be a feature. Last week's meeting was the largest in two years.

They are made of newspaper and boiled in paraffine for several hours. When completed, they are a great convenience to boys in the trenches. The candles were made by Mrs. Warder Wyatt, Miss Cora Mitchell and Mrs. Andrew Stiffler.

A large group of ladies from the Christian Aid society sewed at the headquarters yesterday afternoon. On Tuesday, the Presbyterian ladies worked at the headquarters and on Monday, the Methodists.

Mrs. Mary Shropshire of East Third street is one of Red Cross' most faithful workers. Lately she has clipped into feather-like bits three pounds of scraps which are used to fill comfort pillows. Besides this, Mrs. Schropshire has knitted 18 sweaters.

The number of the articles in the last Red Cross shipment of hospital

supplies show the enormous amount of work the Red Cross workers are accomplishing. Garments and supplies of every kind needed in the army hospitals were included in the contents of the seven enormous boxes.

There were 155 sheets; 655 pillow cases; 760 towels; 70 wash cloths; 195 bed shirts; 95 pajamas; 130 bath robes; 20 pair of bed socks; 10 shoulder wraps; 100 handkerchiefs; 10 pair of convalescent slippers; 71 comfort pillows; 9 large bed comforts; 28 rag rugs; 7 comfort kits.

During January the surgical dressing classes of Red Cross made 4,627 bandages of different kinds. This record is an exceptionally good one for the workers considering the weather during January.

20 DIE IN AIR RAID
Paris, Jan. 31.—Twenty persons were killed and fifty wounded in last night's air raid, it is announced officially.

CASH-AND-CARRY PLAN MAY BE TRIED

Continued From Page 1
A meeting of local grocers will be called in the very near future to take up the results of yesterday's meeting.

—J. E. Steiltz of Indianapolis spent yesterday afternoon in this city.

WAR BREAD COSTLY TO BRITISH GOVERNMENT

Every year the British government pays \$200,000,000 toward the cost of that nation's war bread. That is the principal reason why English bread prices are lower today to the consumer than in America. Incidentally the British bread is much poorer than the American.

Great Britain has taken over all home grown grain, bought at an arbitrary price, and all imported wheat bought in markets of the world at prevailing prices. This is turned over to the mills by the government at a price that allows the adulterated war bread loaf of four pounds to sell at 18 cents. The two pound loaf costs 9 cents, and the one pound loaf sells for 5 cents.

In milling, however, 14 per cent. more flour is extracted from the wheat than in America. And there is a compulsory adulteration of 20 per cent. and an allowable adulteration of 50 per cent.

Compared with American bread, the British product is only about 65 per cent. pure at its best.

In France, under conditions somewhat similar, but with a larger extraction, the four pound loaf sells for 16 cents.

Stop Itching Eczema

Never mind how often you have tried and failed, you can stop itching eczema quickly by applying a little zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

"Your Money Back If You Want It."

Eastern Dishonesty.
"The Levant," which means the same thing as Anatolia—"region of the rising sun"—is quite vague in the geographical scope. It includes Constantinople and everything anywhere near the eastern Mediterranean. Few geographical names have incurred more unfavorable association. "Levantine" morals particularly in the matter of honesty, are a byword, as might be expected from such a jumble of people. Our words "levanter" and "to levant," on the other hand, testify to the fact that dishonesty is not unknown even here in the West. They originate from the disappearance of men, who could not pay their gambling and other debts and were reported to have gone to the East.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—colds of the chest (it often prevents pneumonia). It is always dependable.

NOTICE TO NON-RESIDENT.
The State of Indiana, Rush County. In the Rush Circuit Court, November Term, 1917.

Jasper D. Case vs. Ray Strode.
Complaint No. _____

Now comes the plaintiff, by Douglas Morris, his attorney, and files his complaint herein, together with an affidavit that said defendant, Ray Strode is not a resident of the State of Indiana; that said action is for judgment on account and attachment of property of defendant, and that said non-resident defendant is a necessary party thereto.

Notice is therefore hereby given said defendant, last named, that unless he be and appear on the 8th day of March, 1918, at the Court House in Rushville, in said County and State, and answer or demur to said complaint, the same will be heard and determined in his absence.

Witness my name and the seal of said court, affixed at Rushville, Indiana, this 8th day of January, A. D. 1918.

County News

Sexton

Mr. and Mrs. Orville Porter were the guests of Mr. and Mrs. Elmer Porter Sunday.

Miss Gladys McCorkle is the guest of Mr. and Mrs. John Blessinger.

Mr. and Mrs. Summie Green and family spent Sunday with Mr. and Mrs. Tarel Landers.

Harve Bradburn was a business visitor in Mays Saturday.

Mr. and Mrs. Ben O'Dell and family were the guests of Mr. and Mrs. James O'Dell Sunday.

Miss Goldie Jackson has returned from a visit with her sister, Mrs. Claude Hubber of Mays.

Fairview

A nine pound girl was born to the wife of William Jackson Wednesday.

Miss Lillian Burch has returned from Oxford, Ohio, where she was the guest of relatives and friends.

The carriers on rural routes out of Fairview have been given a great amount of trouble recently on account of the snow drifts. In many places the carriers found it necessary to dig their machines out of drifts in which they had become stuck.

Martin Worle of Greenfork is spending a few days with Mr. and Mrs. Milton Adams.

Mrs. Grant Hinchman and Mrs. Hugh Beaver, members of the Fairview township division of the Connersville Red Cross, have organized a branch at Fairview and at Glenwood.

Mr. and Mrs. Allen Chance were the guests of Mr. and Mrs. Henry Segars of Raleigh Sunday.

Mr. and Mrs. Raymond Bowles and daughter of Mays were the guests of Mr. and Mrs. John Brown Sunday.

Amusements

An interesting and thrilling story is to be told at the Gem theatre this evening in the picture, "Betrayed."

A part of the story goes—

Then Carmelita wakes and finds that it has all been a terrific and terrifying dream. Just before she went to sleep, the bandit had actually come to her house and she had dreamt of him.

She wakes, however, to find a real band and American troops closing in on the hut, where Leopoldo is hidden. The outlaw is captured. And Pepo returns to happiness for both himself and Carmelita.

"The Fighting Trail" will be the attraction tomorrow.

A war romance laid in France shortly after the German invasion is the story told in the picture, "In France," being shown at the Princess theatre this evening. A Yankee soldier and the daughter of a famous French soldier are entangled in the plot. On Friday, Billie Burke appears in one of her most popular plays, "The Mysterious Miss Terry."

The claim of J. K. Kennedy against the estate of Mathew Kerner for \$3.95 has been placed on the issue docket for a hearing.

VINOL MADE THIS NURSE STRONG

Nothing Like it for Rundown and Nervous People

Von Ormy, Texas—"I suffered from a general run-down condition—anaemia, loss of appetite and cough, so I was unfit for my work. I tried different medicines without help, and through my druggist learned of Vinol. I took it; my appetite increased, my cough disappeared, I gained in weight and I am now well and strong, so I can conscientiously endorse Vinol."

Viola Salada, R. N., Von Ormy, Tex.

We guarantee Vinol to build up run-down, anaemic folks or return your money. We take all the risk.

TELLS MEANING OF RED CROSS HOME SERVICE

Civilian Relief Director Begins Series of Articles Explaining Importance of Assistance to Enlisted Men's Relatives

EDITOR'S NOTE: This is the first of a series of five articles prepared by James L. Fieser, director of civilian relief for the American Red Cross in Ohio, Indiana and Kentucky. The subjects of the other four articles in the series are: "What Red Cross Home Service Is," "Financial Aid in Home Service," "What Has Been Taught Home Service Workers," and "Organizing and Training 30,000 Home Service Committeemen."

By James L. Fieser,
Director, Civilian Relief, Lake Division, American Red Cross.

Two new words—Home Service—are taking important places in the vocabulary and activity of the 356 American Red Cross chapters in Ohio, Indiana and Kentucky.

At war's outbreak ten months ago to the few chapters then organized Red Cross work and popular knowledge of it centered only around preparation of hospital supplies, equipment of base hospitals and supplying their personnel, and provisions of relief in times of disaster.

Then came the unfolding of a multitude of other chapter obligations—solicitation of war funds, driving for increased membership, organization of school auxiliaries, turning out huge quotas of knitted articles, surgical dressings and Christmas packets.

Among these obligations—model of 1917—was the organization of Home Service committees, better known in some communities as civilian relief committees. Frequently the activities of the Home Service committees were belittled by other chapter committees. This because importance of Home Service had not been clearly defined. Now, through the efforts of the Bureau of Civilian Relief of the Lake Division, headquarters at Cleveland, chapters have come to a clear understanding of the vitalness of Red Cross Home Service in relation to war and complete victory.

But to the general public, notably in the so-called rural communities, Home Service is little better understood than it was by the chapters a matter of five months back.

So, what is Red Cross Home Service and why?

Home Service must be the nation's assurance that the enlisted and conscripted man's family shall not suffer for want of any essential thing within the power of the nation to give.

The Public's Conception.

"Yes," says Mr. Average Citizen, "but isn't the government providing war risk insurance, and will it not provide separation allowance where necessary? Isn't it a fact that but few men with dependents have been called to arms?"

Mr. Average Citizen is correct, but he is thinking only in terms of money relief. And it is to convince him that administration of money relief is only one of many features of Home Service that this series of articles on the rudiments of Home Service have been prepared.

Scan this brief summary of the opportunities confronting Home Service committees in your county and you will agree that the opportunities have become the duty and privilege of an upstanding, patriotic, American citizenship.

1. Conservation by service of human resources wherever deterioration is threatened in a soldier's or a sailor's home.
2. Temporary relief of families in which there has been a delay in payments, or in which there is an emergency.
3. Responsibility for regular and continued assistance in cases not covered by government allowance—this includes families in need and resident in the United States of men who are in the service of our allies.
4. Personal service to the returned soldier or sailor, especially when he is disabled.
5. An information service which will save time, trouble and anxiety for lonely relatives of enlisted men.
6. Advancement of home standards wherever possible, but especially when the lack of help is likely to cause family disintegration.

Sustains Soldiers' Morale.

"Men may be the best soldiers in the world (I quote you from the Manual of Home Service issued by American Red Cross headquarters, Washington), but if things are not well with their families at home, they lose efficiency through worry, and the morale of the army—that all important factor—begins to fail.

"So it is the patriotic duty as well as the humanitarian opportunity of Home Service workers of the American Red Cross to care for lonely families of our fighting men. It is to be remembered that they soon will be 'fighting men' in real earnest. Not only our enemies, but our allies, and the American people as well, will be watching them.

"Every report from the training camps and from the French front mentions the excellent spirit of our troops. Will they maintain this morale while thousands of miles from home, through trench life and battle, to the victorious end?

"THE ANSWER WILL BE DETERMINED LARGELY BY THE HOME SERVICE OF THE AMERICAN RED CROSS."

Wheatless And Meatless Days Don't Necessarily Mean Privation

There are dozens of wheat and meat substitutes that are just as nourishing and just as palatable.

It is now necessary that we sell a wheat substitute with all white flour sold. Below we list the substitutes we have in stock.

Bulk Corn Meal per pound	8c
Rye Flour	4 lbs. 25c, per pound 7 1/2c
Oat Flour	4 lbs. 25c, per pound 7 1/2c
Steel Cut Oats	4 lbs. 25c, per pound 7 1/2c
Bulk Rolled Oats	4 lbs. 25c, per pound 7 1/2c
Cracked Hominy and Hominy Grits per pound	7c
Flake Hominy	3 lbs. 25c per pound 9c
Pure Buckwheat Flour	3 lbs. 25c per pound 9c

We will have Rice Flour in a few days.

For meat substitutes we offer all kind of Canned Fish, such as Salmon, Sardines and Tuna.

Salt Herring, fine fat fish per pound 12 1/2c

Victory Bread Every Day.

RIPLEY INSTITUTE IS HELD

Prizes Amounting to \$53.75 Were To Be Awarded Today

The Ripley township farmers institute was held at the school building in Carthage today, beginning at 9:30 this morning. Mrs. Givens and Mr. Thompson, institute speakers from Purdue, made the main addresses and M. F. Lovett, federal food administrator for the county, spoke at the morning session. Mrs. Flora Meeks spoke on "Suffrage" at the afternoon session and there was also a violin duet and a reading. Cash prizes amounting to \$53.75 were to be awarded.

GUN FIRE AT FORT SILL IS LIKE WAR

Captain Kiplinger Writes That Active Service Holds Little Terror For Fort Sill Graduates

CAMP QUITE COSMOPOLITAN

American Sammies, French Poilu, British Tommie, Canadian and Scotch Fusiliers Are There

"Life either behind the lines or on the battle front in France will hold no terror for the average graduate of the school of fire at Fort Sill," wrote Captain J. H. Kiplinger from the camp where he was sent several weeks ago from Camp Shelby, Miss., in order that he might take special work in the art of firing the "big guns." The fire of the guns begins early in the morning and in some parts of the camp continues through the entire day, making a deafening roar for miles around.

The captain, who was the commanding officer of the old company B made up mostly of Rush county boys, is about to complete a three months training course at Fort Sill and stated in a recent letter written to friends here that most of the officers had mastered the art of firing the big guns "many of which placed on the opposite side of a hill were absolutely hidden from view."

The following clipping from the Lawson, Okla., paper gives an excellent description of the strange environment in which a number of the men in training, live:

Every day a dozen or more airplanes dressed in war paint, and with the American insignia painted on the tips of their wings, soar over the city at various altitudes, while the buildings in the city are shaken to their very foundations as the big guns of the artillery units on the reservation keep up a continual pounding, as they fire at targets in the foothills of the Wichita mountains.

Dispatch riders on motorcycles ride through the streets at break-neck speed and the big motor trucks of the quartermaster department of the army rattle through the town, while military police patrol all sections.

At the present time Lawton is probably the most cosmopolitan city of its size in the United States. The uniform of the American soldier together with that of the French poilu, the British "Tommie" the Canadians and the Scotch fusiliers, may be seen on the streets at most any time of the day and occasionally a sailor may be seen hobnobbing with men of other branches of the service.

Natives of Mexico have infested the city. A half dozen Chinamen have purchased one of the city's cafes. Negroes and Indians have always made up a part of Lawton's population, but of all races represent the most curiosity among the foreign officers stationed at the post.

They are the subjects of much curiosity and comment on the part of all foreign office but have attracted the most interest among the Frenchmen, who make daily visits to the city and can always be seen on Third street, the Indian's "hang-out," where they are usually hard at work attempting to secure photographs of the obstinate native Americans to show when they return to France.

To the Indians themselves, the Frenchmen in the skyblue uniforms with red trappings are a source of unusual interest, due to the fact that number of Comanche Indian boys are now in training at the various army camps, and the parents of the young "bucks" realize that it is the men in the sky-blue and red with whom their boys are going to battle to victory.

Home Guard

The regular weekly meeting of the Home Guards will be conducted this evening in the corridors of the court house. Drill practice will be held and Capt. Sparks has asked that there be a good attendance.

Save the Milk—Feed Acme Calf Meal

A Real Milk Substitute

FOR RAISING CALVES ON ONE-HALF THE COST OF WHOLE MILK. MIX WITH HOT WATER AND IS READY TO USE.

ACME CALF MEAL is a practical and successful Milk substitute for the raising of calves, young pigs, lambs and colts.

It will furnish the Calves and Pigs the proper nourishment from the time they are a few days old till they go on a grain diet.

It contains no Sulphur, Drugs or Chemicals. Mixed with hot water, it forms a rich milk gruel, palatable and easy to digest.

By its use the feeder can sell his milk and still successfully raise his calves at a cost of less than one-half the price of whole milk.

It is pure and reliable, and unquestionably the most perfect Milk substitute on the market for the purpose it is intended.

It contains all the chemical properties found in the whole milk and will produce a symmetrical growth of both bone and muscle in the young calf. It also prevents scouring.

100 Lbs. Makes 100 Gallons of Real Milk Substitute

ANALYSIS

Protein 27½ per cent

EXAMPLE—To feed a calf whole milk it will take two gallons per day; for 45 days it will take 90 gallons of milk worth 22c per gallon or total cost of milk \$19.80. To feed Acme Calf Meal for SIX weeks it would take 100 pounds Acme Calf Meal.

The whole milk costs \$19.80

The Acme Calf Meal costs about 5.00

The difference in favor of Acme Calf Meal is about \$14.80

A Calf Six Weeks Old at \$5.00 Is Good Property.

Feed ACME PIG MEAL equal to milk, protein 28½%. Fifteen pounds feeds a weaned pig for 30 days for about 65c per month. A complete ration.

ACME WORM BOUNCER expels worms from hogs, horses and sheep. Fed in Self Feeders furnished FREE.

Feed our ACME WORM BOUNCER to expel worms in hogs, sheep, horses and cattle, and use ACME LOUSE POWDER to kill lice on Poultry, Hogs, Horses, Sheep, Cattle and all Plants.

CASH-AND-CARRY PLAN MAY BE TRIED

Decided at Meeting of State Grocers
Attended by L. L. Allen, to
Recommend It

LOCAL BOARD TO FIX PRICE

System Better Than Leaving it to
State Committee—Local De-
livery System Commended

Price interpretations for grocery goods will be decided by county committees and the cash-and-carry plan will be recommended to Indiana grocers, according to the decisions made at the meeting of Indiana grocers held at the Claypool hotel in Indianapolis yesterday when Rush county was represented by L. L. Allen.

Other important changes in the policy of groceries which will affect the consumers are that with every sale of wheat flour an equal amount of substitutes will have to be sold; cities without co-operative deliveries will have only one grocery delivery daily from each store; groceries will remain closed on Sunday.

The decisions that price interpretations should be fixed by county committees which will probably consist of the county food administrator, the delegate to yesterday's conference, and two consumers, followed a careful consideration of leaving this matter to a state committee, a zone committee or county committees. To determine a fair margin on the cash-and-carry basis for grocers will be left to the discretion of the county committees. The interpretation was made a county affair because shipping prices and other expenses aside from the wholesale costs of goods vary in different counties.

The cash-and-carry plan was adopted almost unanimously at the meeting and will be recommended to all Indiana grocers. By the cash-and-carry plan, it is not meant that all grocery purchases will have to be paid for cash or that they will have to be carried instead of delivered. It is meant, however, that those paying cash and carrying articles will receive a reduction and that those running accounts and having articles delivered will pay for them. In no instance, however, will articles that are charged and delivered cost more than they do at the present prices. Those sold on a cash-and-carry basis will be reduced. In addition to the price of the goods, one cent on the dollar will be added for groceries charged and six cents will be charged for delivering an order. Marion county grocers began this plan today.

The Rushville delivery system was quoted by H. E. Barnard as being an ideal one. L. L. Allen, the local delegate was asked to explain in detail just how the system was worked and it was highly commended. After the discussion, the motion which was made that groceries should have only one delivery daily was amended that co-operative deliveries would not be affected. Local deliveries will continue as they have been, inasmuch as they are co-operative.

The ruling that an equal amount of substitutes will be sold with each purchase of wheat flour will be strictly observed. Mr. Barnard stated that at the rate America was consuming wheat flour, the supply would be completely exhausted by May and it was only a choice of making drastic rules now or running out of flour. He had considered seriously forbidding that any wheat flour should be sold this week so that people would get accustomed to buying substitutes. This idea was given up, however. Rye flour and graham flour, which have been considered as wheat substitutes, are no longer such. The allies can use rye flour and graham flour is made from wheat.

DISCOUNT PROMPT TAXES

Income Tax Man at Postoffice Be-
ginning Tomorrow to Give Aid

A three per cent discount will be allowed on income taxes paid at the time the returns are filed out. This word was received at the local postoffice this morning. The time until June 15 is allowed for paying the taxes but this offer is made to induce taxpayers to settle early in order that less work will be attached to the income tax and that the government may have the use of the money. Harry P. Euler, income tax inspector, will be at the postoffice beginning tomorrow to aid taxpayers in making out their returns.

RULES MAYS SHOULD PAY \$6 YEAR FLAT RATE

State Commission Decides Against
Spiceland Phone Co. Owner of
Mays Exchange

VICTORY FOR LOCAL COMPANY

The ruling of the state public service commission on the petition of the Spiceland Telephone Co., owner of the Mays exchange, for a larger percent of the flat rate paid by Mays subscribers for Rushville service, was received here today. The commission decided Mays subscribers should pay the Rushville Co-operative Telephone company a flat rate of \$6 a year for Rushville service. The Spiceland company was given the alternative of rejecting the flat rate charge and placing the Mays-to-Rushville service on a toll basis, charging ten cents a call and dividing the tolls equally between the Spiceland and Rushville companies.

The ruling was a victory for the Rushville company because Mays subscribers have been paying \$6 a year for Rushville service, \$1.50 going to the Spiceland company and \$4.50 to the Rushville company. The Spiceland company, in its petition, demanded the flat rate of \$6 be divided equally between the two companies. The Spiceland company alleged it owned the line from Mays to this city, the Rushville company making a showing that it owned the line.

STRIKERS AND TROOPS IN CLASH IN BERLIN

Dispatches From Amsterdam Say
There Were Casualties During
The Conflicts

SOME TROOPS REFUSE TO FIRE

(By United Press.)
Amsterdam, Jan. 31.—According to dispatches printed today there have been conflicts between troops and strikers in Berlin with casualties.

At some places the story asserted troops refused to fire on the strikers. Dispatches from Vienna say soldiers started the recent strike movement, many Austrian officers leaning. These officers tore off their insignia and joined with the men. Another dispatch declared a revolution not a strike is reigning in Austria.

Prague messages reported that the local authorities were unable to suppress the strikers and that troops were arriving to aid.

THREAT BRINGS ARRESTS

(By United Press.)
Petrograd, Jan. 31.—A number of anarchists were arrested by the Bolshevik government today as the result of threats to hold American Ambassador Francis responsible for America's treatment of Alexander Kerensky.

WEEK PROMISES TO SET A FUEL RECORD

From Seven to Nine Cars of Coal
Should Reach This City by
Saturday at Latest

TWO HEADED THIS WAY TODAY

Cold Wave Slips In Over Night,
Causing Drop of 20 Degrees,
And Departs Today

The coal situation was even more hopeful today than it has been for several weeks because from seven to nine cars of coal will arrive here yet this week if nothing intervenes.

Only one car of coal was received this morning, but there were two cars headed this way from Anderson this afternoon, due to arrive late today, and two coming from Columbus over the Pennsylvania, one of which was to be set off at Manilla as a loan from Rushville, and the other to be brought on here. The Cottage hotel got a car of Indiana coal and some of it will be sold for domestic use.

Both the Innis-Pearce and Park furniture factories closed last night and it was not heatless Monday either. It was heatless Thursday with them because they did not have enough fuel to operate. One of the cars on the southbound Big Four freight out of Anderson, to arrive here late today, was for the Innis-Pearce factory. Walter Pearce of the Park went to Terre Haute today to see if he could not get some coal.

The dealer to whom one of the cars on the Big Four freight this afternoon was consigned, is expecting three more cars of fuel administration coal and two cars of West Virginia coal on his own orders yet this week. Another dealer anticipates the arrival of a car of West Virginia and a car of Kentucky coal at any time. This makes eight and the one coming in over the Pennsylvania this afternoon for still another dealer makes the ninth which should arrive here yet this week.

The cold wave scheduled to visit Rush county last night arrived on time, according to Elwood Kirkwood, county weather observer, but it came and went during the night and as a result was not noticed to a great extent by many people.

There was a drop of twenty degrees in temperature last night. At 6:30 yesterday evening the thermometer registered twenty-two above and this morning shortly before daylight had fallen to two degrees above zero. At noon the mercury had climbed again, however, until it had reached the twenty degree above mark.

The weather man, with his prophecy of "fair and colder" for tonight offers little consolation to those people who are awaiting anxiously the prediction of warmer weather.

WAGE INCREASE ADVISED

(By United Press.)

Washington, Jan. 31.—Wage increase of from 10 to 20 per cent for practically all postoffice employees were recommended to the house today by the post office committee.

CANADA SEIZES WHEAT

(By United Press.)

Winnipeg, Jan. 31.—All wheat in elevators throughout Canada aggregating 100,000,000 bushels was seized by the government today. Orders to the United States must be cancelled.

SPANISH SHIPS HELD

(Continued on Page 2)

New York, Jan. 31.—On orders from the government all Spanish steamships now in American ports will be held for an indefinite period. It was learned today when the Alphonso 12th, a large Spanish passenger vessel, was ordered held in port as she was ready to sail. There are 15 ships of the same kind now in this port.

MEMBERSHIP IS CLIMBING FAST

Members That Join up to Time His-
tory Goes to Press Will be In-
cluded in Honor Roll

MANY NEW ONES EVERY DAY

R. E. Mansfield Will Compile Book
of Rush County's War Record
in Every Conflict

Rush county's membership in Red Cross will go far over the number reported at the conclusion of the membership drive. This report showed that the county had a membership of 8,712 but since that time, the names of new members have continued to pour in. There is scarcely a day at the Red Cross office, off of the recorder's office on the second floor of the court house, that several new names are not handed in for membership. On Tuesday 12 new members came in and on Wednesday by early afternoon, five new names had been handed in.

These new members are in addition to those who have already been turned in from over the county as a result of the campaign during the drive. It is impossible just how high the membership roll will mount but it is safe to predict that there will be more than 9,000 members in Red Cross from Rush county.

The new members who join up to the time that the Red Cross history goes to press will be included in the honor roll of Rush county citizens who have in this way done their bit. This book will go over the whole country-to-former Rush county citizens and one whose name is omitted because they have failed to join Red Cross will have great cause for regret.

The local chapter is very fortunate in having such a personage as Robert E. Mansfield to compile the book. Mr. Mansfield has had experience in book writing and is taking a great interest in making this publication one of which the county will be proud. Records of the armies that have gone from this county in every conflict as well as many other facts of the county's activity will be included in its pages.

Blanks have been posted in the banks, newspaper offices, and Red Cross headquarters over the county where persons wishing to subscribe for the history may leave their name and twenty-five cents for each copy wanted. Lawyers, doctors and school teachers are to consider themselves appointed on the committee to explain the purpose and value of the history to persons wishing to know about it, and also to accept subscriptions.

HOME GARDENERS MAY GET FREE SEED

Congressman Richard N. Elliott Of-
fers to Send Packages to Any-
one Applying For Them

IS PART OF FOOD CAMPAIGN

Garden seed packages may be procured free of charge from Congressman Richard N. Elliott, according to the letter received from stating that "anyone writing to me asking for seed will receive a package of the same." Congressman Elliott's address is 354 House Office Building, Washington, D. C. The address of the applicant should be plainly written to accompany the request for seed.

The free distribution is a part of the greater food production movement and the congressman is anxious that a package of the seeds be in the hands of every householder in the small district who intends to raise a garden.

TO TAKE RELIGIOUS CENSUS

Ministerial Association Makes Plans
For Canyass in February

Complete plan for taking a religious census of Rushville and its suburbs were laid at the meeting of the ministerial association and the Sunday school superintendents held at the home of Walter E. Frazee last evening. Twenty workers from each church, 120 in all, were appointed to make the canvass to be conducted either February 10 or 11. The results of the canvass will be given to each church which will plan an individual campaign to reach the persons who have shown a preference for that church.

SAYS FARMERS MUST DETERMINE ISSUE

President Wilson Makes Public Ad-
dress Prepared to Deliver at
Urbana, Ill.

MUCH DEPENDS ON AMERICA

(By United Press.)

Washington, Jan. 31.—"The culmination of the struggle has come. The farmer of this year on one side or the other must determine the issue," said President Wilson today to farmers in making public an address he had prepared to deliver at Urbana, Ill. today.

"And in facing this crisis," he said, "it has turned out that the forces that fight for freedom of men all over the world as well as our own depend on us in an extraordinary and unexpected degree for sustenance, for the supply of materials, by which men are to live and fight. And it will be our story when the war is over that we have supplied the material and supplied an abundance. That it will be all the more glory in supplying them, we have made our supreme effort and sacrifice."

"We are fighting as truly for the liberty and self government of the United States as if the war of our own revolution was to be fought over again and every man in every business must know by this time that his future fortunes depend on victory."

"Our national life and whole economic development will come under foreign government if we do not win. We must win therefore and will win. I need not ask to trust your lives and fortunes with those of the rest of the nation in the accomplishment of this task."

COAL OIL SHORTAGE BEEN AVOIDED HERE

Consumers Are Using Many Extra
Gallons of Oil For Lamps and
Stoves at Present

IS FELT IN OTHER TOWNS

Although the coal oil wholesalers have been kept busy during the last ten days supplying the grocers with oil, a shortage of this product which has been so greatly in demand recently, has so far been prevented in Rushville.

Because of lack of gas for lighting purposes as well as heating, lamps and coal oil stoves have been taken out of the dark corners and are again in use, and as a result the extra gallons of oil which are used in Rushville daily are no small items when the wholesaler begin checking up.

In several of the surrounding towns the shortage of coal oil was acute. During the recent cold days in several homes where the gas was low and no coal could be obtained, the people depended upon coal oil both for lighting and heating purposes.

TWO SAMMIES DIE IN A GERMAN RAID

Four Are Wounded and One Taken
Prisoner When Enemy Over-
whelms Americans.

BATTLE AGAINST BIG ODDS

That Sammies Fought Valiantly is
Testified to by the Disorder in
The German Lines

(By United Press.)

With the American Army in France, Jan. 31.—Two American soldiers were killed, four wounded and one taken prisoner yesterday in an enemy raid against a small American station. The Americans battled heroically against the superior odds. Taking advantage of a heavy mist the Germans started an intense fire.

The fire destroyed the line of communication by which aid could have been summoned. That the Sammies fought valiantly was testified to by the disorder in the German lines. How much loss the Germans suffered is not known as they took away their dead and wounded.

The fight began suddenly after a night of quietude. There had been only customary artillery fire. American patrols who had been out in No-Man's land had all returned.

Most of the shells that came in the deluge of German fire were heavy 77. They were directed around a little crest held by the Americans which sticks out like a peak toward the German lines.

Five American soldiers have been killed recently by chance shells, it was announced today. The only American officer included in the list of wounded was Capt. Kingman, who was mistaken for a German by a Sammie in the dark and was shot in the head.

Seventeen men in all had been wounded recently, but of these six were reported to have suffered accidental wounds.

CHANGES MADE IN THE PHYSICAL TESTS

Requirements Lessened so Practi-
cally Every Man Can be Ac-
cepted For Service

ONLY VERY FEW WILL ESCAPE

(By United Press.)

Washington, Jan. 31.—Changes in the physical requirement for men in the national army by which thousands who have been rejected under the first regulation can be accepted for service, were announced today by Provost Marshall General Crowder.

The modifications indicate that the war department is determined to hold for service either general military or special all men resistant except those whose physical condition cannot be remedied to make them fit for any kind of service.

THRIFT DAY TO BE OBSERVED

Ministers Asked to Preach Special
Sermons on Sunday

Thrifty Day, February 3, will be widely observed in Rush county this year. The ministers of the churches have been asked by county chairman of the War Savings Stamp campaign, John A. Titworth, to dwell on the meaning of true Thrift at the Sunday services, appropriate exercises will be conducted in the schools on the following day, and special effort to increase the sale of Thrift stamps and war certificates will be made on the Monday following Thrift Day.

Grandpa Is Sixty-four Today

and in the best of health. Hale and hearty, with good, red blood, good appetite and good digestion. Grandpa's nerves are steady, too. He takes care of himself. He keeps himself fit. He sees to it that his nerves and blood are in good shape. When he finds that he is eating without relish, feeling a little depressed and cross, sleepy all day yet can not sleep at night, he begins his treatment of Bio-feren, the nerve and blood tonic. Bio-feren, a compound of Lecithin, Iron, Peptonate and other valuable tonic elements in tablet form, is just exactly what the average tired business man, the average housekeeper needs at this season of the year. It tones the nerves and puts vigor and energy into the system. There is no mystery about Bio-feren. Every package shows just exactly the content. Ask your doctor about Bio-feren, or, if you wish, send us his name and we will forward him the complete literature. Give Bio-feren a fair trial. If it doesn't make good your money will be pleasantly returned to you. Interesting booklet will be mailed you on request. Large package \$1.00 at all good druggists or direct if your druggist doesn't handle it. The Sentinel Remedies Co., Cincinnati, Ohio.

All Fats Should Be Saved To Reduce Shortage Which World Faces, Says Expert

The United States is confronted by a shortage of sugar and fats. The world has been facing a shortage of fats for two or three years. Fats and sugar are necessary human foods and since they serve practically the same purpose an increase of the supply of fats will serve to relieve the sugar shortage. The supply can be increased in two ways, by production and by conservation. Conservation offers immediate relief and is the quickest way of increasing the supply.

A large amount of fat is wasted in the average home because members of the family, especially the youngsters, do not like fat meat. A large percent, therefore, of the fat served in the American home finds its way to the garbage can. Where hogs or poultry are kept this is not entirely wasted, but these animals can obtain this energy-producing food from other sources which offer a cheaper supply.

P. F. Trowbridge of the University of Missouri college of agriculture, offers the following suggestions for conserving this important food: "All clean fats should be saved and rendered for edible fats (lard substitutes). Beef and mutton fats are hard and do not work in the kitchen as readily as the softer fats. Mix these fats with lard or refined cottonseed oil and a very satisfactory cooking fat is obtained. If mutton fat be rendered with milk (sour milk is even better than sweet) the objectionable flavor will be almost entirely eliminated. Poultry fat should never be thrown away but rendered for use in cooking. All grease and non-edible fat obtained in the home at all seasons and especially at butchering time should be rendered and saved for soap making.

"The government needs the fats," said Doctor Trowbridge. "We need them ourselves. The starving people of Europe need them. A waste of any kind of food at this time is unpatriotic."

HAVE A SMILE

Pleasant for Him.

Bobby (entering sister's room)—Bobby told me yesterday you was born to be a politician.

Mr. Simpson—A politician? Why does she think that?

Bobby—That's what ma asked her, and she said because you can do so much talkin' without committing yourself.

Muzzle Not the Ox.

Manager (excitedly)—Where is the apple to put on Tell's son's head? There isn't a moment to lose. Stage Director—Tell ate it up because you refused to advance him money yesterday, and he said he was hungry.

A Generous Daughter.

Aged Admirer—Think of all the luxuries a rich husband like me can give you.

Miss De Young—Oh, a rich father would do just as well! Marry my mother!

A Vengeful Spirit.

Nurse (to bawling boy)—Why, Bobby, aren't you ashamed? I wouldn't cry that way if it was my hair that was being combed.

Bobby (fiercely)—I'll bet you would if I was doin' the combin'.

Too Modern.

She—You don't hear these good old-fashioned hymns sung any more at church.

He—I guess you are right. The congregation broke down last Sunday in singing "Old Hundred."

She—What was the trouble?

He—The organist tried to rag it by playing it fifty-fifty.

Reformed.

Mrs. Henpeck—I married you to reform you.

Mr. Henpeck—You succeeded. I'll never marry again if I live to be 1,000 years old.

Age Matter of Illusion.

We are never old, that is, we never cease easily to be young, for all life at the same time; youth is an army, the whole battalion of our faculties and our freshnesses, our passions, and our illusions, on a considerably reluctant march into the enemy's country, the country of the general lost freshness; and I think it throws out at least as many stragglers behind as skirmishers ahead—stragglers who often catch up but belatedly with the main body, and even in many a case never catch up at all. Or under another figure, it is a book in several volumes, and even at this a mere installment of the large library of life, with a volume here and there closing, as something in the clasp of its covers may assure us, while another volume is being completely opened or kept open by a good finger thrust in between the leaves. Henry James in "The Europeans."

Important Information

Sugar

You would buy if you could, you would have bought a ton sixty days ago if you had foreseen the present shortage. We're all running around now for a pound, here and there. But still we haven't suffered.

For the past five years, we have been eating just about four times as much sugar as our fathers and mothers ate 10 to 20 years ago, and they most all lived to ripe old ages. So why worry about sugar?

Wool

Here is something that we all want and need, and the greatest wool famine this country has ever known is coming. In fact, it is here.

Before the war we produced only one-half the wool we needed. We imported the other half.

Our army, for woolen overcoats, suits, blankets, underwear, hosiery, mittens and sweaters, requires as much as we formerly produced or imported.

Our production of wool has not been increased. Our imports of wool are lessening. There are 50,000 tons of sugar on the way from Louisiana, but there are no ships to bring even a pound of wool from Australia. You can worry about wool.

Buy Clothes

We don't say this altogether because of the fact that we are in the clothing business.

We are now closing a year's business that will finish far in excess of that of any previous year. You have done very well by us this year, and we feel we can afford this space to give you this tip to buy clothes—all wool clothes—whether you trade or buy here, or buy of some of our neighbors.

We Will Say This

Our stocks of all wool clothes for men and boys are the largest in our history.

They're worth much more than we paid for them.

They'll continue to grow in value as the wool market tightens. When you consider that we're selling them at prices based on what we paid months ago, you'll realize that we're giving you something. Therefore buy all the clothes you can buy now.

Are You Feeling Fit?

Do you envy the man or woman of untiring energy, strong body and happy disposition? All these depend upon good health, and good health is impossible when the kidneys are weak, overworked or diseased. Foley Kidney Pills act promptly and help the kidneys filter the blood and cast out the poisonous waste products that cause sore and swollen muscles and joints, backache, rheumatism, and the symptoms that give warning of dangerous kidney and bladder ailments. F. B. Johnson. (Adv.)

A PUFF AND A BLOW.

In a Little While a Pain. Same Misery. No Relief Till Pepsinco is Found. Moral—Keep Pepsinco on the Table and Take After the Meal.

Pepsinco never fails to give almost instant relief in indigestion, dyspepsia, sour stomach, bloating, sick headache. Thousands of satisfied users will vouch for Pepsinco, simply because it is always ready.

Pepsinco acts quickly and is safe and sure. It digests perfectly all that is eaten. The stomach is a peculiar organ. It will not allow an overdoing. It cries out when it is worked too hard. It sends a wireless for help and it behooves every one to watch for the sign.

Mr. R. said: "I wouldn't be without Pepsinco, if it costs ten times what it does." He said it keeps him well. Many persons say the same. Pepsinco is a true friend. It is guaranteed to help in every instance when the stomach bothers. All druggists recommend it and sell lots of it.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this cure was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salt before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get into this famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to cleanse and stimulate sluggish kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders. Jad Salts is irrefragable; cannot injure, makes a delightful after-dinner beverage, and keeps in every home because nobody can make a mistake by having a good kidney flushing every time.

This May be Pro-German Too

When there was objection to giving the fuel administration control over oil, Mr. Garfield gave out a statement criticizing the objectors and saying, among other things, that some of the objection was "possibly pro-German." There we have a fair sample of the attitude at Washington. To question the wisdom of policies of the administration is to lay yourself open to the insinuation that you are "pro-German." When some of the over-zealous buyers of Liberty bonds found that they had undertaken more than they could fulfill and sold their bonds at a loss, the insinuation came from the treasury department that these sales were pro-German. Complaints of deplorable conditions in the army camps were also pro-German until democratic committees of congress got busy and made the facts a matter of public record; since then there has been no insinuation that the exposures were pro-German. By this time the general public is getting wise to the fact that the shout of "Pro-German" is pretty likely to be a cloak for incompetency of some kind.

A Blow at Federal Ownership

Government ownership of railroads has received a setback through the favorable vote of the senate interstate commerce committee on Senator James E. Watson's amendment to limit federal control of the roads until a year after the war. The administration bill under which the roads are now being operated provides government control of the roads shall not terminate only at the express will of congress. Foes of government ownership of railroads have contended this means that it is the wish of the administration to continue federal control after the war, which would be done if the opposition to the plan were not too great.

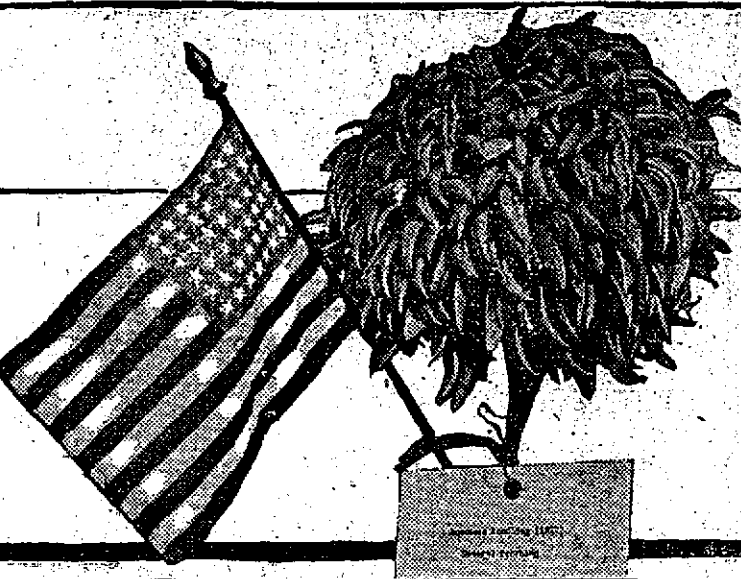

Senator Watson has led the opponents of government ownership and introduced the amendment to limit federal operation. Favorable vote on the amendment in the committee does not mean it will pass because it yet has to be considered by both the senate and the house.

Swatting Motorists

Looks like somebody sits up nights thinking of a new scheme to swat automobile owners. A bill has been introduced in congress proposing a federal license for all owners of automobiles who do not drive their own cars. It is provided that a fee of not less than \$25 shall be charged every such private owner. The bill proposes that the licenses shall be issued by the overworked secretary of the treasury, and fines of not more than \$25 are prescribed for the operation of a car, the owner of which has not complied with the provisions of the bill.

The kaiser is reported to be running short of man power. This country should help him out to the extent of about a half million of his subjects for whom we have absolutely no need.

FLOWER NAMED FOR NATION'S WAR LEADER

Gen. John J. Pershing, leader of America's armed forces in France, is godfather of Uncle Sam's finest chrysanthemum. One of the most popular exhibits in the government botanical gardens at Washington is the "General Pershing," which is shown in the picture.

FRANK CALDWELL IN FRANCE

Frank Caldwell, son of Mrs. Sarah Caldwell and brother of Mrs. Charles Brooks and Mrs. Al Williamson of this city, has arrived safely in France, according to word received by relatives. He is with a construction company having a number of government contracts.

Republic advertises for "the meanest boy in the United States" and guarantees that in six months he will be made 100 per cent good. They may be able to make him good all right, but it's a safe bet they will have no volunteers.

An Oregon man makes the statement in his questionnaire that he is 9 feet 6 inches tall and weighs 123 pounds. Evidently swallowed a string and shrunk to it.

Nick Romanoff is said to have plenty of cash in the bank of England. Uncle Sam might attach it as security for money loaned his government.

—Martin C. Reed of Connersville was the guest of friends in this city yesterday.

OVERWHELMED BY FAST EM ROE FIVE

Fairview Athletic Club Basketball Team Defeated by Champion Independent Quintet

THE FINAL SCORE IS 45 TO 17

Fairview Scores 1 Point in First Half But Piles up 16 in Last Ten Minutes of Play

In the most thrilling basketball game staged in Rush county in several seasons the Em-Roes, state independent basketball champions, defeated the Fairview Athletic Club team last night by a score of 45 to 17. The game was played in the Fairview gym and was witnessed by more than three hundred basketball fans from Rush and Fayette counties.

The Fairview five has played together for three years and the defeat which they suffered in last night's game was the first on their own floor. They played against overwhelming odds, however. The Em-Roes are made up of men from some of the fastest college teams in the state. Stonebracker and Bacon, two of the Em-Roes star players were members of the Wabash Wonder Five of last year and with the excellent team work and expert basket shooting of the other members of the championship team, carried the Fairview team off their feet.

Glen Smelser a former star on the Purdue basketball team, and Ralph Martin, a star on the local high school team of last year, played an excellent game for the Fairview athletics. The accurate basket shooting of the two stars in the last part of the game assisted by Nelson, another Fairview player, piled up 16 points for the losing team in the last ten minutes of the game. At the close of the first half the score stood 20 to 1. The lack of playing of the Rush county boys during the first part of the game was attributed to "stage fright" but as soon as they warmed up, their playing took on that whirlwind motion which compelled the Em-Roes to play with added energy.

The line-up was as follows: Fairview—forward, Smelser and Nelson; center, R. Martin; guards, Foster and Hinchman and A. Martin. Smelser made one foul goal in the first half and four field goals in the last half. Nelson scored one field and one foul goal and Martin two field goals and one foul goal.

The Em-Roes lined up as follows—forward, Smith and A. Brent; center, Stonebracker; guards, Bacon and O. Brent. In the first half, Stonebracker scored nine field goals and two foul goals and Smith and Bacon each scored a field goal. In the last half Stonebracker made four field goals and one foul goal.

Had the Grip Three Weeks

With January comes lagrippe. Lingering colds seem to settle in the system, causing one to ache all over, feel feverish and chilly, tired, heavy and dropping. Mrs. Lizzie Tyles, Henderson, Ky., writes: "My daughter had lagrippe for three weeks. I had the doctor and bought medicine and none of it did any good. I gave her Foley's Honey and Tar and now she is all right. I have told all my friends about it." Insist on the genuine Foley's Honey and Tar. F. B. Johnson.—(Adv.)

LOCAL BASKETBALL GAMES CANCELLED

School Board Asks That This Step be Taken as a Fuel Conservation Measure

WAS TO BE GAME HERE FRIDAY

All high school basketball games during the severely cold weather have been cancelled. The action was taken this morning following the request made by the school board that it be done as a fuel conservation measure. If conditions improve, the basketball tournament will be held here February 23, otherwise it will not.

The Liberty game for tomorrow night has been called off and the Richmond game for next Friday night will also be cancelled. Both were to have been on the local floor. The Liberty players understood the situation when called and accepted it in the spirit the ruling was made.

Smith scored two and A. Brent three field goals.

The game was refereed by Ross Smith of Indianapolis.

Remodeling Old Clothing, Transforming Worn Garments Into Serviceable New Ones

Change entire style of dress if you have enough material, or put some other kind of material with old material for woolen and silk is combined in many of the new winter costumes, says Hazel Zimmerman, Home Demonstration Agent, Agricultural Extension Service, University of Arizona.

Put a new collar, cuffs, and belt on the old dress. This will improve looks of dress. Change length of skirt. Do not have skirt too short or too long. Practical skirts for women are five to six inches from floor. If garment cannot be made over for owner it should be made into clothes for smaller members of family.

Most all garments should be mended before cleaning or laundering. Mending tissues helps out wonderfully in mending of woolen clothes. This is used after garment is cleaned. All patches should be faded the same color as garment before using. Use strong net in mending stockings. The bars are easy to follow in making darning stitch.

Many old garments can be made new again by changing the color. Always follow the directions found on package of dye for these are the best. Get dye to suit kind of material. Never try to dye cotton material with dye for woolen material. Always use the amount of salt called for when dyeing cotton garments. The salt sets the dye. Old gingham aprons and dresses which have faded may be dyed a dark blue. These iron nicely and look like new. Never try to dye a dark material a light shade for this cannot be accomplished with satisfactory results.

Cleanliness is the god of the navy. A man—boy, rather—since he is commonly under twenty-one—arrives at Great Lakes by the noon train and goes into the detention camp. He is lined up with 40 or a hundred others and his baggage examined. Cigarettes, knives, whisky, firearms—anything he might hurt himself or his neighbor with—are confiscated. When he has a hot bath and clean clothes. In the days that follow he goes to the dentist and has his mouth put in shape, Collier says. He goes to the doctor and is vaccinated, inoculated, tested. He is given \$90 worth of new clothes—three suits of white clothes, two suits of serge clothes, three suits of underwear, stockings, shoes, handkerchiefs, caps, dunnage bag—everything stencilled in two places with his own name. Then he is introduced to the ki-yl.

The ki-yl is a scrubbing brush, a wooden-backed scrubbing brush with stiff fiber bristles. It is the washing machine of the navy. Every man washes his own clothes.

KILLED IN TEST FLIGHT

Paris, January 30.—The duke of Chevreuse was killed today while making a test flight in an airplane. He was twenty-six years old, son of the duke of Luyne and grandson of the duchess d'Uzes.

Society

The members of the Women's Relief Corps of this city enjoyed a delightful all day meeting at the home of Mrs. James Gregg in North Harrison street yesterday. The affair was given in honor of the birthday of Mrs. Gregg and at noon a sumptuous pitch-in dinner was served. The house was decorated attractively in national colors, patriotic decorations being suggested by the numerous American flags which were used through the rooms. Twenty-five guests were entertained.

During the afternoon a program was given honoring the birthday of McKinley. A short sketch of his life was read by Mrs. Mary Young after which a program of musical numbers and recitations was given by Miss Lillian Priest and Miss Lillian Gregg.

Mrs. Walter Bearinger was elected president of the Junonia club at the regular meeting which was held yesterday afternoon at the home of Mrs. Charles White in South Harrison street. The other newly elected officers were: secretary, Mrs. Charles White and treasurer, Mrs. Walter Smith. The guests enjoyed a pleasant social afternoon, following the business session, and a two course luncheon was served.

The next meeting will be held in two weeks at the home of Mrs. Walter Smith in North Sexton street.

Mrs. Esther McClood and Mrs. C. E. Walden of Connersville, both formerly of this city, have received favorable comment after their work as soloists in the performance of "The Messiah" in the Connersville high school auditorium recently. There was a chorus of 125 voices for the concert. Their names are also mentioned in the account of the performance given in the Musical Observer, one of the leading musical periodicals of New York City.

The members of the F. A. R. C. E. club and several other guests were entertained yesterday by Mrs. Ned Tompkins at her home in Milroy, at Rock. The rooms were arranged in

an attractive manner for the affair, flowers and greenery being used about in profusion. Guests for six tables were entertained and at the close of a pleasant afternoon the hostess served a dainty luncheon.

Mr. and Mrs. H. M. Allender entertained with an informal dinner party yesterday at their home followed by an afternoon at Rock. The guests included Mr. and Mrs. Lawrence Price and son Lowell, Mr. and Mrs. George Adams, and Raymond Price of Carthage, Mr. and Mrs. R. W. Alexander of Arlington and Mr. and Mrs. Edward Adams and daughter Helen of Indianapolis.

Honoring Mrs. Francis Moor of Chicago, Mrs. Will Carter entertained at her home in North Main street yesterday afternoon with a Bridge party. The guests included the members of the Thursday afternoon bridge club and a few other guests and at the close of a delightful afternoon the hostess served a dainty two course luncheon.

Mr. and Mrs. John C. Blackledge who are spending the winter with their son Lieut. Allan Blackledge at Camp Shelby, Hattiesburg, were among the chaperons at a military ball given recently by the Hattiesburg Elks for the officers of the camp who are members of the Elks lodge.

Red Cross Notes

The Milroy auxiliary of Red Cross, in spite of the fact that their headquarters in the Masonic rooms have been closed during the fuel shortage, has accomplished a great deal of sewing in the past two months. All of the work during this time has been done in the homes with small gatherings of the members or handed out to members of the society who have done individual work. In spite of these handicaps the ladies recently sent a shipment of goods to the Indianapolis headquarters which included 272 pieces.

A large shipment of trench candles was sent out from the Red Cross headquarters yesterday. The box contained 700 candles made for use in the trenches, each of which will burn between 20 and 30 minutes.

Mrs. Mary Shropshire of East Third street is one of Red Cross' most faithful workers. Lately she has clipped into feather-like bits three pounds of scraps which are used to fill comfort pillows. Besides this, Mrs. Shropshire has knitted 18 sweaters.

The number of the articles in the last Red Cross shipment of hospital

Days Pickings

Lieutenant Raymond Ross of Crawfordsville now in the French aviation service has safely reached France according to the cablegram received by his parents. He spent a three months leave in this country after being in foreign service for some time.

Miss Gladys Tittsworth, daughter of John A. Tittsworth, was one of the 20 students out of the 5,000 in Chicago university who received straight A grades on her studies for the last semester. Miss Tittsworth's grades were two A's and one A minus. Such a record is remarkable in that university. She is a graduate of the local high school.

Mr. and Mrs. James Meek of Albion, Mich., formerly of this city have received word from their son, James Meek of the 17 Aerial Squadron that he has safely arrived on the other side. The message was sent as a cablegram. It is not known where he landed.

Corporal Charles Pea, of this city, formerly of the headquarters company of the 139th field artillery stationed at Camp Shelby, Hattiesburg, has been transferred to the Auxiliary Remount Depot No. 313. Corporal Pea will still be stationed at Camp Shelby.

Lester Caron, Company, A, 152nd Infantry, son of Mr. and Mrs. Charles Caron of this city, has been transferred to Camp Hancock, near Augusta, Georgia. His brother, Jerome Caron, is at Camp Hancock in the aviation service.

The First Presbyterian church prayer meeting will be held tonight at 7:30 o'clock at the home of Mr. and Mrs. Fred A. Caldwell in North Morgan street. The subject will be the third study in the book of Job, "Does the Law of Cause and Effect Always Hold True in the Moral World?" Special music will be a feature. Last week's meeting was the largest in two years.

They are made of newspaper and boiled in paraffine for several hours. When completed, they are a great convenience to boys in the trenches. The candles were made by Mrs. Warder Wyatt, Miss Cora Mitchell and Mrs. Andrew Stiffler.

A large group of ladies from the Christian Aid society sewed at the headquarters yesterday afternoon. On Tuesday, the Presbyterian ladies worked at the headquarters and on Monday, the Methodists.

Mrs. Mary Shropshire of East Third street is one of Red Cross' most faithful workers. Lately she has clipped into feather-like bits three pounds of scraps which are used to fill comfort pillows. Besides this, Mrs. Shropshire has knitted 18 sweaters.

supplies show the enormous amount of work the Red Cross workers are accomplishing. Garments and supplies of every kind needed in the army hospitals were included in the contents of the seven enormous boxes.

There were 155 sheets; 655 pillow cases; 760 towels; 70 wash cloths; 195 bed shirts; 95 pajamas; 130 bath robes; 20 pair of bed socks; 10 shoulder wraps; 100 handkerchiefs; 10 pair of convalescent slippers; 71 comfort pillows; 9 large bed comforts; 28 rag rugs; 7 comfort kits.

During January the surgical dressing classes of Red Cross made 4,627 bandages of different kinds. This record is an exceptionally good one for the workers considering the weather during January.

20 DIE IN AIR RAID

Paris, Jan. 31.—Twenty persons were killed and fifty wounded in last night's air raid, it is announced officially.

CASH-AND-CARRY PLAN MAY BE TRIED

Continued From Page 1
A meeting of local grocers will be called in the very near future to take up the results of yesterday's meeting.

—J. E. Steiltz of Indianapolis spent yesterday afternoon in this city.

WAR BREAD COSTLY TO BRITISH GOVERNMENT

Every year the British government pays \$200,000,000 toward the cost of that nation's war bread. That is the principal reason why English bread prices are lower today to the consumer than in America. Incidentally the British bread is much poorer than the American.

Great Britain has taken over all home grown grain, bought at an arbitrary price, and all imported wheat bought in markets of the world at prevailing prices. This is turned over to the mills by the government at a price that allows the adulterated war bread loaf of four pounds to sell at 18 cents. The two pound loaf costs 9 cents, and the one pound loaf sells for 5 cents.

In milling, however, 14 per cent. more flour is extracted from the wheat than in America. And there is a compulsory adulteration of 20 per cent. and an allowable adulteration of 50 per cent.

Compared with American bread, the British product is only about 65 per cent. pure at its best.

In France, under conditions somewhat similar, but with a larger extraction, the four pound loaf sells for 16 cents.

Stop Itching Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

"Your Money Back If You Want It."

Eastern Dishonesty.

"The Levant," which means the same thing as Anatolia—"region of the rising sun"—is quite vague in the geographical scope. It includes Constantinople and everything anywhere near the eastern Mediterranean. Few geographical names have incurred more unfavorable association. "Levantine" morals, particularly in the matter of honesty, are a byword, as might be expected from such a jumble of people. Our words "levanter" and "to levantine" on the other hand, testify to the fact that dishonesty is not unknown even here in the West. They originate from the disappearance of men who could not pay their gambling and other debts and were reported to have gone to the East.

WANT ADS BRING RESULTS

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—colds of the chest (it often prevents pneumonia). It is always dependable.

30c and 60c jars; hospital size \$2.50.

NOTICE TO NON-RESIDENT.

The State of Indiana, Rush County. In the Rush Circuit Court, November Term, 1917.

Jasper D. Case vs. Ray Strode.

Complaint No.

Now comes the plaintiff, by Douglas Morris, his attorney, and files his complaint herein, together with an affidavit that said defendant, Ray Strode is not a resident of the State of Indiana; that said action is for judgment on account and attachment of property of defendant, and that said non-resident defendant is a necessary party thereto.

Notice is therefore hereby given said defendant, last named, that unless he be and appear on the 8th day of March, 1918, at the Court House in Rushville, in said County and State, and answer or demur to said complaint, the same will be heard and determined in his absence.

Witness my name and the seal of said court, affixed at Rushville, Indiana, this 8th day of January, A. D. 1918.

GEO. B. MOORE, JR., Clerk.

Mr. and Mrs. Orville Porter were the guests of Mr. and Mrs. Elmer Porter Sunday.

Miss Gladys McCorkle is the guest of Mr. and Mrs. John Blessinger.

Mr. and Mrs. Summie Green and family spent Sunday with Mr. and Mrs. Tarel Landers.

Harve Bradburn was a business visitor in Mays Saturday.

Mr. and Mrs. Ben O'Dell and family were the guests of Mr. and Mrs. James O'Dell Sunday.

Miss Goldie Jackson has returned from a visit with her sister, Mrs. Claude Hubber of Mays.

Fairview

A nine pound girl was born to the wife of William Jackson Wednesday.

Miss Lillian Burch has returned from Oxford, Ohio, where she was the guest of relatives and friends.

The carriers on rural routes out of Fairview have been given a great amount of trouble recently on account of the snow drifts. In many places the carriers found it necessary to dig their machines out of drifts in which they had become stuck.

Martin Worle of Greenfork is spending a few days with Mr. and Mrs. Milton Adams.

Mrs. Grant Hinchman and Mrs. Hugh Beaver, members of the Fairview township division of the Connersville Red Cross, have organized a branch at Fairview and at Glenwood.

Mr. and Mrs. Allen Chance were the guests of Mr. and Mrs. Henry Segars of Raleigh Sunday.

Mr. and Mrs. Raymond Bowles and daughter of Mays were the guests of Mr. and Mrs. John Brown Sunday.

Amusements

An interesting and thrilling story is to be told at the Gem theatre this evening in the picture, "Betrayed."

A part of the story goes—

Then Carmelita wakes and finds that it has all been a terrific and terrifying dream. Just before she went to sleep, the bandit had actually come to her house and she had dreamt of him.

She wakes, however, to find a real band and American troops closing in on the hut, where Leopoldo is hidden. The outlaw is captured. And Pepo returns to happiness for both himself and Carmelita.

"The Fighting Trail" will be the attraction tomorrow.

A war romance laid in France shortly after the German invasion is the story told in the picture, "In France," being shown at the Princess theatre this evening. A Yankee soldier and the daughter of a famous French soldier are entangled in the plot. On Friday, Billie Burke appears in one of her most popular plays, "The Mysterious Miss Terry."

The claim of J. K. Kennedy against the estate of Mathew Kerner for \$3.95 has been placed on the issue docket for a hearing.

VINOL MADE THIS NURSE STRONG

Nothing Like it for Rundown and Nervous People

Von Ormy, Texas—"I suffered from a general run-down condition—anaemia, loss of appetite and cough, so I was unfit for my work. I tried different medicines without help, and through my druggist learned of Vinol. I took it; my appetite increased, my cough disappeared. I gained in weight and I am now well and strong, so I can conscientiously endorse Vinol." Viola Salada, R.N., Von Ormy, Tex.

We guarantee Vinol to build up your blood, stimulate your appetite, and give you energy. We take all the time.

TELLS MEANING OF RED CROSS HOME SERVICE

Civilian Relief Director Begins Series of Articles Explaining Importance of Assistance to Enlisted Men's Relatives

EDITOR'S NOTE: This is the first of a series of five articles prepared by James L. Fieser, director of civilian relief for the American Red Cross in Ohio, Indiana and Kentucky. The subjects of the other four articles in the series are: "What Red Cross Home Service Is," "Financial Aid in Home Service," "What Has Been Done for Home Service Workers," and "Organizing and Training 30,000 Home Service Committeemen."

By James L. Fieser, Director, Civilian Relief, Lake Division, American Red Cross.

Two new words—Home Service—are taking important places in the vocabulary and activity of the 355 American Red Cross chapters in Ohio, Indiana and Kentucky.

At war's outbreak ten months ago to the few chapters then organized Red Cross work and popular knowledge of it centered only around preparation of hospital supplies, equipment of base hospitals and supplying their personnel, and provisions of relief in times of disaster.

Then came the unfolding of a multitude of other chapter obligations—solicitation of war funds, driving for increased membership, organization of school auxiliaries, turning out huge quotas of knitted articles, surgical dressings and Christmas packages.

Among these obligations—model of 1917—was the organization of Home Service committees, better known in some communities as civilian relief committees. Frequently the activities of the Home Service committees were belittled by other chapter committees. This because importance of Home Service had not been clearly defined. Now, through the efforts of the Bureau of Civilian Relief of the Lake Division, headquarters at Cleveland, chapters have come to a clear understanding of the vitalness of Red Cross Home Service in relation to war and complete victory.

But to the general public, notably in the so-called rural communities, Home Service is little better understood than it was by the chapters a matter of five months back.

So, what is Red Cross Home Service and why? Home Service must be the nation's assurance that the enlisted and conscripted man's family shall not suffer for want of any essential thing within the power of the nation to give.

The Public's Conception. "Yes," says Mr. Average Citizen, "but isn't the government providing war risk insurance, and will it not provide separation allowance where necessary? Isn't it a fact that but few men with dependents have been called to arms?" Mr. Average Citizen is correct, but he is thinking only in terms of money relief. And it is to convince him that administration of money relief is only one of many features of Home Service that this series of articles on the rudiments of Home Service have been prepared.

Scan this brief summary of the opportunities confronting Home Service committees in your county and you will agree that the opportunities have become the duty and privilege of an upstanding, patriotic, American citizenship.

1. Conservation by service of human resources wherever deterioration is threatened in a soldier's or a sailor's home.

2. Temporary relief of families in which there has been a delay in payments, or in which there is an emergency.

3. Responsibility for regular and continued assistance in cases not covered by government allowance—this includes families in need and resident in the United States of men who are in the service of our allies.

4. Personal service to the returned soldier or sailor, especially when he is disabled.

5. An information service which will save time, trouble and anxiety for lonely relatives of enlisted men.

6. Advancement of home standards wherever possible, but especially when the lack of help is likely to cause family disintegration.

Sustains Soldiers' Morale. "Men may be the best soldiers in the world (I quote you from the Manual of Home Service issued by American Red Cross headquarters, Washington), but if things are not well with their families at home, they lose efficiency through worry, and the morale of the army—that all important factor—begins to fall.

"So it is the patriotic duty as well as the humanitarian opportunity of Home Service workers of the American Red Cross to care for lonely families of our fighting men. It is to be remembered that they soon will be fighting men in real earnest. Not only our enemies, but our allies, and the American people as well, will be watching them.

"Every report from the training camps and from the French front mentions the excellent spirit of our troops. Will they maintain this morale while thousands of miles from home, through rough life and battle, to the victorious end?"

THE ANSWER WILL BE DETERMINED LARGELY BY THE HOME SERVICE OF THE AMERICAN RED CROSS.

Wheatless And Meatless Days Don't Necessarily Mean Privation

There are dozens of wheat and meat substitutes that are just as nourishing and just as palatable.

It is now necessary that we sell a wheat substitute with all white flour sold. Below we list the substitutes we have in stock.

Bulk Corn Meal per pound	6c
Rye Flour	4 lbs. 25c, per pound 71c
Oat Flour	4 lbs. 25c, per pound 71c

RIPLEY INSTITUTE IS HELD

Prizes Amounting to \$53.75 Were To Be Awarded Today
The Ripley township farmers institute was held at the school building in Carthage today, beginning at 9:30 this morning. Mrs. Givens and Mr. Thompson, institute speakers from Purdue, made the main addresses and M. F. Lovett, federal food administrator for the county, spoke at the morning session. Mrs. Flora Meeks spoke on "Suffrage" at the afternoon session and there was also a violin duet and a reading. Cash prizes amounting to \$53.75 were to be awarded.

IS ON THE BELL JURY

David T. Kirkpatrick of near Falmouth is sitting on the jury in federal court in Indianapolis which is hearing the case of the former mayor of Indianapolis, Joseph E. Bell, charged with conspiracy, interference with registration and frauds in the 1914 election.

GUN FIRE AT FORT SILL IS LIKE WAR

Captain Kiplinger Writes That Active Service Holds Little Terror For Fort Sill Graduates

CAMP QUITE COSMOPOLITAN

American Sammies, French Poilu, British Tommie, Canadian and Scotch Fusiliers Are There

"Life either behind the lines or on the battle front in France will hold no terror for the average graduate of the school of fire at Fort Sill," wrote Captain J. H. Kiplinger from the camp where he was sent several weeks ago from Camp Shelby, Miss., in order that he might take special work in the art of firing the "big guns." The fire of the guns begins early in the morning and in some parts of the camp continues through the entire day, making a deafening roar for miles around.

The captain, who was the commanding officer of the old company B made up mostly of Rush county boys, is about to complete a three months training course at Fort Sill and stated in a recent letter written to friends here that most of the officers had mastered the art of firing the big guns "many of which placed on the opposite side of a hill were absolutely hidden from view."

The following clipping from the Lawson, Okla., paper gives an excellent description of the strange environment in which a number of the men in training, live:

Every day a dozen or more airplanes dressed in war paint, and with the American insignia painted on the tips of their wings, soar over the city at various altitudes, while the buildings in the city are shaken to their very foundations as the big guns of the artillery units on the reservation keep up a continual pounding, as they fire at targets in the foothills of the Wichita mountains.

Dispatch riders on motorcycles ride through the streets at break-neck speed and the big motor trucks of the quartermaster department of the army rattle through the town, while military police patrol all sections.

At the present time Lawton is probably the most cosmopolitan city of its size in the United States. The uniform of the American soldier together with that of the French poilu, the British "Tommie" the Canadians and the Scotch fusiliers, may be seen on the streets at most any time of the day and occasionally a sailor may be seen hobnobbing with men of other branches of the service.

Natives of Mexico have infested the city. A half dozen Chinamen have purchased one of the city's cafes. Negroes and Indians have always made up a part of Lawton's population, but of all races represent the most curiosity among the sent here the Indians probably excite the most curiosity among the foreign officers stationed at the post. They are the subjects of much curiosity and comment on the part of all foreign officers but have attracted the most interest among the Frenchmen, who make daily visits to the city and can always be seen on Third street, the Indian's "hang-out," where they are usually hard at work attempting to secure photographs of the obstinate native Americans to show when they return to France.

To the Indians themselves, the Frenchmen in the sky-blue uniforms with red trappings are a source of unusual interest, due to the fact that number of Comanche Indian boys are now in training at the various army camps, and the parents of the young "bucks" realize that it is the men in the sky-blue and red with whom their boys are going to battle to victory.

Home Guard

The regular weekly meeting of the Home Guards will be conducted this evening in the corridors of the court house. Drill practice will be held and Capt. Sparks has asked that there be a good attendance.

With All Our Meatless, Wheatless, Heatless, Sleepless, Porkless, Lightless and Eatless Days

NOTHING HAS EVER BEEN SAID ABOUT

Dirtyless and Soiledness Garments

This time of the year is the best of all to secure your cleaning, pressing and repairing. We clean daily—not only men's garments, but make a specialty of ladies' wearing apparel.

Don't throw away a piece of clothing because it has a shabby appearance. Our methods will make a new garment for you.

We Must Win the War!

(You and I and All of Us)

And we can not do it by suspending business. Business must go on, it must be better than ever before, in order that we may win this war for democracy. Keeping up business is just as essential to bringing about a successful termination of this war as is the man power in the front line trenches.

We, ourselves are very optimistic about business. We believe that business is going to be far better than it has ever been before and we think you will agree with us, that business must be kept going, and we are preparing to take care of your Drug Store needs, with that in view.

Our immense stock of Drugs, Wall Paper and Paints will be kept up to full capacity, enabling you to get what you want, when you want it, and at the lowest possible price consistent with the quality merchandise we carry.

Our efficient service is always at your disposal and we want you to use it.

Don't fail to call us, no matter what you may want.

Save the Milk—Feed Acme Calf Meal

A Real Milk Substitute

FOR RAISING CALVES ON ONE-HALF THE COST OF WHOLE MILK. MIX WITH HOT WATER AND IS READY TO USE.

ACME CALF MEAL is a practical and successful Milk substitute for the raising of calves, young pigs, lambs and colts.

It will furnish the Calves and Pigs the proper nourishment from the time they are a few days old till they go on a grain diet.

It contains no Sulphur, Drugs or Chemicals. Mixed with hot water, it forms a rich milk gruel, palatable and easy to digest.

By its use, the feeder can sell his milk and still successfully raise his calves at a cost of less than one-half the price of whole milk.

It is pure and reliable, and unquestionably the most perfect Milk substitute on the market for the purpose it is intended.

It contains all the chemical properties found in the whole milk and will produce a symmetrical growth of both bone and muscle in the young calf. It also prevents scouring.

100 Lbs. Makes 100 Gallons of Real Milk Substitute

ANALYSIS

Protein 27 1/2 per cent

EXAMPLE—To feed a calf whole milk it will take two gallons per day; for 45 days it will take 90 gallons of milk worth 22c per gallon or total cost of milk \$19.80. To feed Acme Calf Meal for SIX weeks it would take 100 pounds Acme Calf Meal.

The whole milk costs \$19.80

The Acme Calf Meal costs about 5.00

The difference in favor of Acme Calf Meal is about \$14.00

A Calf Six Weeks Old at \$5.00 Is Good Property.

Feed ACME PIG MEAL equal to milk, protein 28 1/2%. Fifteen pounds feeds a weaned pig for 30 days for about 65c per month. A complete ration.

ACME WORM BOUNCER expels worms from hogs, horses and sheep. Fed in Self Feeders furnished FREE.

Feed our ACME WORM BOUNCER to expel worms in hogs, sheep, horses and cattle, and use ACME LOUSE POWDER to kill lice on Poultry, Hogs, Horses, Sheep, Cattle and all Plants.
